

As a parent, I am asking you not to change your policies on nudity and expletives on television. Our children see and hear enough trash on the television already and as time goes by policies seem to be more relaxed when they need to be more strict. It is no wonder we have the sexual promiscuity and disrespect in our country that we do. Pornography is all over the internet and we are already having to guard our children's hearts and minds. I am asking you to please make your policies more strict. There is too much garbage filling their minds already, please-CONSIDER OUR CHILDREN AND DON'T BE SELFISH!!
