

We live in the mountain time zone. Many times during our so-called family friendly viewing times, we are subjected to adult television because of the time zone differences. Relaxing the constraints currently enforced will subject many children and adults to even more unwanted (and unnecessary) language and viewing.

I oppose any changes to the current FCC indecency standards that would allow television and radio stations to broadcast expletives and nudity on the public airwaves, even if brief or "fleeting."

Relaxing the current policy would not serve the public interest and I urge the FCC to reject all proposals that would allow for the broadcast of expletives and nudity on FCC-licensed stations.

Thank you for your time.
