

I strongly implore you NOT to lift the ban on profanity!! Profanity offends me and i refuse to watch any program with cursing or nudity, my children and grandchildren are not allowed to wAtch it either. As soon as we hear cursing, the station gets changed. Also, please do NOT allow any form form of nudity on television! Society is bombarded enough with trash, please keep our airwaves clear and clean of all profanity and nudity. I also beg you to forbid homosexual behavior to be broadcast! Protect our children, they already grow up too fast.

I would also ask that violent movies and even the trailers for such be banned from family friendly stations and even Fox News. I turn off my TV or change the channel when violent trailers or commercials come on.
