

I object to the new standards for television allowing more obscene language and nudity during prime time. This is the time when families watch television together, and I don't think it is appropriate for family viewing. What my children and grandchildren are exposed to in their daily life I can't control, but I can control what they are exposed to in my home. If it is allowed in my home, everyone involved thinks it is OK for all viewing. It will not be allowed in my home. I will not have television if it passes.
