

We do not want our children seeing naked people or have the f-word aloud on tv or the radio. I want to feel like my children are safe with what they watch when I'm not in the room. I already feel that too much nudity and sexual talk is on the tv and radio. I don't feel that any sex/nudity or bad language is necessary for America to have entertainment. I turn the tv or radio off when they curse and talk about sex or being naked right there on screen. Please don't let this happened. This will be one less family and many more to not watch public television and listen to the radio. There are many families who hold high standards. Its too bad that we don't have higher standards for tv and radio.
