

I want to voice my opposition to any changes to the current FCC standards for indecency that would allow the tv, radio stations and other airwave carriers that you have jurisdiction over to be any more lenient than they are.

We especially need to watchful and enforce any policies regarding expletives and nudity during times when children are able to be watching and listening. It is our responsibility as adults to make the airwaves as safe as possible.

We do not want to relax these policies. That would NOT serve the public interest. I urge the FCC to reject all proposals that would allow the broadcasting of these types of situations over FCC licensed stations.
