

I am TOTALLY AGAINST the uplifting of the ban on nudity and all cursing on public television and radio. It would destroy what morals that are left in this country. Our children for generations would be subjected to it and the moral foundations that we, as parents, are trying to teach our children would be moot. To watch/listen to our favorite program(s) with our children and be subjected to the corruption allowed would be against our right to choose what to enjoy. It would be on every channel. This would only increase the immorality of this nation.
