

I am strongly opposed to the FCC lowering standards of decency by allowing any explicit language or scene such as have been outlawed thus far.

As an educator, I see the detriment such influences have on the mind of a child and the power the broadcast media has over their lives. I petition you to maintain the stricter standards by banning the use of vulgar, explicit language or viewing. The FCC has the power, the responsibility, and the charge to keep our airways clean for wholesome family participation. Reject all proposals to allow the broadcast of expletives and nudity on FCC licensed stations.
