

I understand that the FCC is considering dropping the ban on the use of some profanity and sexual content/nudity in television and radio. I must urge you to keep tight restrictions on the use of profane or indecent content in television and radio. Our culture is deteriorating morally. To continue to loosen our boundaries and moral standards is destructive and damaging to our children and making it increasingly difficult for parents to teach and enforce morality and socially appropriate behavior. As a culture we must draw a line and set limits on what we are feeding our kids!

Thank you!

Russell Payne, M.Ed., LPC-S
