

Any thing refering to sex, exploitation, sexual content or inuindo should be removed from all regular TV programs, our kids are teenagers, they not only have access to TV durig the day, but evenings as well, the commercials alone are outrageous, worse than even some programs (bootycall.com, etc.) this has de-sensitizing effects on our teens because they are so easily influenced and impacted at this age, worse even than our younger children. TV has helped to damage our society, standards of selves and one another, most shows are sexual and distasteful, no wonder 90% of our men are stuck in pornography or masturbation addictions, they never get any influence to get right.
