

Anything you can do to continue the prohibition of profane language and ANY form of sexuality (including indecent Hardee's commercials) would be appreciated. Our children are growing up too quickly and we find that we just can't watch much TV any more....please do what you can to bring our moral standards back to the 50's.....we crave good family programs with NO profane language and everyone watched out for each other as good morals were being taught! God bless our country that seems to be turning to depravity and evil at an increasing speed....don't encourage that....have some backbone and do what it right!! PLEASE!!
