**RE; FEDERAL COMMUNICATION COMMISSION INVESTIGATION ON
PRISON COLLECT PHONE CALL RATES**

The Federal Communication Commission is investigating the collect phone call rates for prisoners making collect phone calls to their family and friends. Anyone who has ever been incarcerated or received a collect phone call from some one incarcerated knows the outrageous rates charged especially for the first two minutes. Sad part is that is when the computer is talking. We all need to use this opportunity to attempt to change this . Everyone affected by this can write to the FCC or email them at:

Federal Communication Commission

or

Email at

fccinfo@fcc.gov

We also request if you could please send us a copy of the letter or email we would appreciate it. We would like to compile as many letters as possible. Thank you for your assistance in this righteous fight.

Sincerely yours;

Brian Nelson

Dear Sir/Madam:

I'm currently an incarcerated person in the Pennsylvania Department of Corrections. I'm considering starting a computer programming/video game company once I'm released. Can you provide me with information (free of charge) concerning any rules and regulations that must be observed for such a venture? _____

I thank you for your time.

Sincerely,

My name is Tynone Brewer Jr. and I am incarcerated in Menard Correctional Center and I have been in the penitentiary since October 5, 2007 and I have a major complaint since I've been in the penitentiary Consolidated phone service has been charging people in here \$10 dollars a phone call since I've been in the penitentiary until March 7, 2013 now the price is \$4.10 cent for a phone call since they had switched phone companies to Securus phone billings. So can you guys please investigate that matter because my love one's has overpaid for these phone calls over the years. Write me back when you guys get time to let me know what can I do about that and God bless.

Sincerely, Tynone Brewer Jr.
