

Dear Sirs:

The ads and programming on tv is already bad enough, with enough swxual inuendoes. We don't want you to change it and make it any worse than it already is! Our families are important to us;we don't watch sexually oriented programs and we don't want to have to see sexually oriented ads either. We certainly don't want our young people exposed to anything eorde than what's already on ,that's bad enough.

we implore you to not pass this . Thank you!
