

I understand the FCC is considering increasing the allowance of nudity and profanity on public TV. I am asking the FCC to reconsider and to consider decreasing the amount of nudity and profanity on public TV. The facts do not support an improvement in society with the promotion of nudity and profanity. I myself as an adult am disgusted with another adult feeling the need to use profane words to "entertain", I believe such language is immature and lacks self control. Nudity itself promotes an increase in sexual activity outside of the bonds of marriage and should not be promoted either, facts regarding these two issues can be found on www.frc.org.

Thanks you for your consideration to this matter.
