

I am saddened to learn that you are considering loosening current standards as they relate to expletives & nudity on broadcast TV. Our children & families already face a barrage of indecent material with current standards & the lack of enforcement of those standards. I shudder to think of what our children will hear & see if any more nudity or vulgarity is tolerated by this commission. I hope you choose to do the right thing for families, especially our children & teens. Do not relax the standards; increase them.
