

I am disgusted by the thought of just anybody, including myself, children and husband, potentially be exposed to the reasons why our world is becoming so corrupt. It's sad that people feel like better tv doesn't mean better tv show plots, actors or ideas, but rather it's better by including foul language and nudity. That shows a lack of creativity. People will still watch tv all day even if there isn't any swearing or nudity so why choose to offend people, corrupt children and make people's lives even more disgusting then they need to be. Stay safe, be responsible and regulate!
