

I heard you are thinking of relaxing the standard of what is allowed to be shown on prime time tv. Any kind of nudity is not ok! F-bombs are not ok. Isn't pornography a big enough problem as it is. Why subject our children to seeing that kind of filth. Are morals completely a thing of the past? Do we need to corrupt our society even more? This should not be allowed! If people want to see and hear trash they can pay for a channel that allows it. It shouldn't be Allowed on regular prime time television!
