

Please DO NOT allow these changes. This world is so full of mentally warped people and our children and women being sexually and physically molested everyday which totally ruins their entire life. This is becoming a "normal life style" in America. This type of mind set has totally destroyed most of the the Eastern Hemisphere. Please do not open the door for that to happen in the USA. Our airways are poluted with alot of that filt now and we certainly don't need more mental cases. Our prisons are full of these violent people. I know first hand as I visit the prisons and jails regularly and deal with these warped- minded people. A person becomes what they see and hear. Thank you for NOT allowing this to pass.

Sincerely,

Linda McKnight
