

This is why our country is in such turmoil. We have abandoned our roots and disgarded what our founding fathers fought for and beleived. We were founded on strong Christian principles and strong family units. We have moved so far from those values they are no longer visible. This is one more step in the wrong direction. This country is doomed if we do not get back on our knees as a nation and ask God to come back into our lives but we need to live like we mean it and this is in no way a step towards that goal. This is why I do not watch television. It has become so perverted and disgusting it is no longer entertaining. It embraces immorale unions and acts and it encourages perversion. You need to rethink this decision.
