

I do not think or believe that we need to put the f\*\*\* bomb on any of the tv station or show. I also do not think that nudity need to be show as well, I feel that it not appropriate at all. I am grown adult I do not like it at all, I feel that it not need. IF you chose to have that kind of conduct that by we have rating on movies, and I can chose not watch that because of those rating. Tv should be able let your child regular tv with little guidance but have a sure that show that does not carry that kind of content.
