

I am very saddened that you the FCC feel that more skin and 4 letter words are needed in todays entertainment. These are NOT needed to enhance our viewing pleasure.

Seeing a female take her top off and seeing her in all her "glory" adds NOTHING to the story line. Dropping the F-bomb is the same adds NOTHING to the story line. Even if my childern don't see these shows I don't want to eather.

Thank you for your time.
