

Please protect our children from the onslaught of sexual images and nudity pervading our TV screens anytime of day. Put an end to it. Do the right thing. They and everyone do not need to hear the "f" word or other obscenities and it is about time we clean up the airwaves and make TV more family friendly for all. Give them positive images and words. Let's not cave to the pressure of pushing the envelope just a little bit more. Thank You.
