

Please do not lower the current FCC indecency standards by allowing television and radio stations to broadcast expletives and nudity on the public airwaves. Lowering standards is not a lasting solution for your backlog. Instead it would ensure that your future backlog would be filled with darker cases as programming spirals to new depths. Please stand firm.

I understand that Supreme Court has confirmed the FCC's authority to enforce policies regarding expletives and nudity. I urge you to do the job for which no one else in the country has sufficient authority in protecting the innocence of our children.

Thank you for hearing my concern. Have a nice day.
