

I know people who won't have a tv in their homes cause of the language and the crude shows. I used to think that was going to far. Today I am leaning toward getting rid of my tv. I do not want to hear cussing on my tv. I do not want to see sexual stuff on my tv. I think more people are going to be getting rid of their tvs if this trend of allowing more bad language and crude shows continues. Please do not allow more.
