

Pls don't do this to our children or our families. It is another drastic step down the drain for our nation/culture. We are already offended by the words being used on programs that are on before 9 pm who are using them and are not being filed against by the FCC. Degrading to women and offensive and our children should not be taught 'slutzie' language. The morality of our children is at stake. They should decide when they are older if they want to speak down in their language. Of what value are these to the program. If they can't act w/o taking off their blouses what value will that add to their program and if they can't write in the English language well enough to express themselves w/o curse words they are of little talent in their writing skills. We are gradually spiraling downward in a mirey pit of desecrated morals. Pls fine those who are already slipping in these words on programs such as Blue Bloods and NCI. I have QUIT watching these because of their insistent vulgar language.
