

Please do not show any nudity, brief or not. Please do not allow sex drugs and explicit underwear commercials, etc. during prime time. In this sex/drug/violent world, we need to be showing kids class and morals and protect them. I am offended and embarrassed sitting in a room with my grown sons and grandchildren when a commercial about male erectile dysfunction or his & hers orgasm commercials appear.

All these gross movies about walking dead and vampires are morbid. These and shows showing explicit violence are having a negative influence on our children and our society.

Are we a lost society? We need to cheer the world not depress it.
