

Please do not change the current broadcast decency standards! They are there to protect our children!! We make a conscious effort to not speak like this in our home around the kids - knowing we cannot control what they are exposed to in other areas of their lives - and DO NOT want this language being heard from the TV. Nudity is not a big deal, we are all humans and our bodies should not be something that we are embarrassed about, and I choose to raise my kids that way. Foul language is another story. Please reconsider.
