

We are totally against the FCC allowing anymore nudity, including frontal female nudity, and crude words like the f-word being used on TV. We know it is now allowed in the later evenings, but we hope you will do everything possible to not allow it to penetrate our lives during any hour of the day. Our country needs more respect for all people and by showing more nudity and vulgar language, it just brings our whole society down to a much lower level.

Let's try to encourage people to be respectful in all areas of life.

Thank you.
