

Please retain the ban on profanity and nudity. I have family and extended family members that watch television and I don't want them subjected to that. I'd prefer to retain the services of public television and my cable provider, but I will not hesitate to cancel any/all services that broadcast profanity and/or nudity. I can always stream what I want to see via the internet. This is not a warning, it's a promise. I keep my word.
