

I am completely opposed to allowing nudity and profane, explicit language on the TV. I urge you to keep the current standards that prohibit the broadcast of these things. We cannot lower our standards and expose our children or ourselves to immoral and indecent material. Everywhere in the news and around us is evidence of the decline in moral values. This decline has directly affected our country negatively, with an increase in crime, children being raised without fathers and the over sexualizing of our youth. I strongly urge you to keep the standards of decency and not allow nudity or explicit language.
