

Greetings,

I would urge you to NOT change your policy so that you prosecute deliberate and repetitive use in a patently offensive manner of profanities and partial nudity. I believe that is going the wrong direction. I would like you to be more firm in stopping ANY profanity and nudity. I hate any of it being on TV. I am opposed to allowing network television and local radio stations to ever allow the F-word, the S-word and show frontal female nudity. Again, I would urge you to NOT change your policy.
