

I like listening to the radio when I drive, but if the standards are dropped I will be very offended and will not be able to listen to the radio any more. I have a young daughter who is very impressionable at home. I do not enjoy vulgarity in any form (language or pictures) and I would not want my daughter viewing this. Please protect the rights I now have to not view vulgar content. There are outlets for those who choose to enjoy this, but not on public TV. Thank you for listening.
