

I oppose the relaxing of the regulations. I am so sick of having to scan movies and shows due to all the indecency. I already can't see most movies because directors feel like they need to throw in some horrible sex scene and lots of curse words. I have expectations when I turn on my TV that I'm not going to be bombarded with a bunch of filth. Though some people may feel nudity is ok along with a bunch of curse words, I know majority do not including me. I will cancel my television service if the filth is allowed during my nightly programming. This is the reason why I don't subscribe to HBO or Cinemax, now Starz and encore are even allowing nudity in their programming. So many stations and movies are already pushing the envelope and I just don't want to see it. Our children are already subjected to so much from the violent video games (some even with nudity), PG-13 movies becoming to suggestive even for teenagers, and much more. Call me a dull person all you want I have more to do with my life other than watch filth on TV. STOP FORCING FILTH ON ME AND SO MANY OTHERS WHO JUST DON'T CARE TO SEE IT!!!!
