

I oppose swearing and nudity on prime time or any time television. Why is this being shoved down everyone's throat? The majority of people do not want this. It is very bad for our families to be exposed to such things. It will make our society worse than it is. Our programs on TV have gotten so filled with filth that they are not fit to watch. If you want to see the future of our country become worse then this is the way to do it. A lot of people will turn away from TV. There are other ways for families to find entertainment that will not take away moral values!

Evil is just moving in on TV more and more. It is very sad that we have changed so much so fast into such a corrupted and defiled place. I will turn my TV off before I watch such indecent things. The FCC should stand up to these so called big networks. Why let them run the show? It will not be worth it! Please reconsider and don't allow these big networks to push you around. There is a higher power that will stand up for what is decent! Don't sell out! Think of our future!
