

If there is a change to be made in the FCC's indecency standards for TV and radio, I would like to see you set higher, stricter indecency standards, instead of caving into pressure and lowering them further. Lowering the standards of what America watches on the whole just degrades our society even further, and showing MORE nudity just promotes more addiction to pornography. It impacts children AND adults in a negative way. You have the chance here to make history by setting a new standard, a higher one, one that elevates us, and prevents us from being the laughing stock of the world. Thank you for your time.
