

Hi My name is Gurinder hothi I am working for a tv channel which is transmitted from India I was working to add local content in the playlist of That TVAs A camera man cum Offline Editor . Now all Indian TV's starting to broadcast without local content . They Give Us Notice That We Are going To Lose Our jobs.

My company wasAlso broadcasting That TV in Canada Now They are Going To stop Because of a law in Canada That Tv Channel Must Add 15% Local Programming And spend 15% Revenue in Canada. I Want to know that is there any similar law is USA so we Can Push to implement that law and save our jobs there are more than 1000 international channels working in the USA and most of them just take the revenue in the pocket no local programming and no local jobs if there is any law as Canada Have and TV's start adding 15% local content Each Channel have to hire at least 7or 10 people and this way a lot of jobs will be saved and created please help me if there is law pls order carriers to ask tv channels obey and if no law please make such law .If there is any law pls send me a soft or hard copy so we go to local union or court to save our jobs pls respond at
