

After personally filing numerous complaints to the FCC regarding numerous TV shows that taught children about double minded jokes, inappropriate behavior at home or anywhere for that matter, including animated pornography aired thru Family Guy where the white dog is show having sex with a little girl and the worst that it was prime time where the children and teens are still able to view that trash; I'm disappointed with the old administration and will not stop, nor let the guard or pursuit diminish at any time; please let me encourage all the TV viewers that agree with withdrawing all the trash available on the TV menu today, helping to make a change!!! Thank you, Nancy
