

I am writing to complain of the high cost of cable TV (I have AT&T-Uverse). The only channel I watch, besides my local TV stations, is Fox News, Fox Business and CSPAN. Why do I have to pay for all those other channels just to get one or two? I find that I use the internet more and more to view content over my TV. I use Apple TV. And I am over 70 years old. It's a rip-off and it is a government sanctioned rip-off to pay for everything when I just use one or two things.
