

I had just got a local call from an attorney office harassing me for my address and parent phone number. I called this company back and got transferred to someone in Arizona. This has been going on since last year these harassing calls even after I wrote in my explanation about a dental bill that they say I owe and told them I had appealed it and I was not going to pay this debt since number one: I had to pay another 3000.00 to have another bridge done and 800.00 for a root canal. All this would of been prevented and taken care of if the dentist did not put me through a runaround and put the correct bridge in. The assistant had told me they used the wrong glue but denied it afterwards. The bridge was loose and I had to go to a specialist that said I did not need a root canal and then months later had to have one. All this was at my own expense. All this was going on when I was in severe pain and ill health on top of tending to my ill father who just passed away. The person who I just talked to is or said he is from Joe Pizoto Law Firm in Arizona the mans name is Phil at 866-295-4778. The lady that called and started harassing me was from a number of 727-475-6803. I told these people I am on social security and have no money and if they want to take me to court I would be more than happy to show the Judge all my paperwork and receipts of what I did pay years ago for this bad dental work. It was a very stressful time for me and now they said the bill is 1200.00 and they would take 300.00 to get it off the account. I told Phil I was not able to pay anything as I am having a hard enough time to making ends meet on disability and financial hardships at this time. Phil told me that they just starting calling but that is not true as I get these collection calls from Care Credit or this organizations several times a day. If you need anymore information please write me and thank you for taking the time to read this. He (Phil) said he would cease collection calls at this time.
