

Please keep Morality standards high. We must not allow slang and suggestive language or public nudity become the "norm"!

History will show us that, when the morality of a nation, world empire or, biblically, the world around Noah became so corrupt, bad things happen! God blessed America when our standards were His! Even when we fail, He never does! Standards of morality must be higher than man's nature, because bad things happen when man selfishly controls, manipulates or rules himself!
