

Please keep the ban on profanity & nudity! Please consider, that most of our household are children who enjoy watching various family friendly shows on tv, together with adults in our family. However, if more profanity & nudity were allowed, then our children would not be able to search for & watch specific tv shows, that we as a family enjoying watching together. Therefore our family would consider discontinuing watching tv & would instead watch online programming on the computer, that is more to our family's taste. Thank you!
