Re: Waiver Request for Form 471 deadline

I have been applying for E-rate discounts for our phone bill for the last eight years in the amount of \$1200.00. I have never missed a deadline. I completed my Form 470 on 11/21/13 and when I received my phone bill yesterday (which I normally do not get at the school) I remembered E-rate. I immediately went on-line and filled out the Form 471, but was told the window had closed and I needed to do a waiver request.

My only excuse is that I was not receiving my school email during the month of February, due to a server problem, so if reminders were emailed out, I missed them.

I am asking that you accept this waiver request and I certainly appreciate your help in this matter.
