AFFIDAVIT OF Allan H. Frey

I Allan H. Frey, attest that my statements are true to the best of my knowledge.

1. My name is Allan H. Frey

Comment round for ET Docket No. 03-137 and WT Docket No. 12-357.

2. My address is 11049 Seven Hill Lane, Potomac, MD 20854 USA
Email: allan@freys.us
3. I am a scientist with a considerable amount of experience in research on the biomedical effects of the non-ionizing radiation being considered here by the FCC.
4. The issue is not whether cell phones are safe; it is whether the particular frequencies and modulations that the FCC assigned to cell phones, based on faulty assumptions, are safe.
5. The FCC made assumptions about physiology and about available biological data with non-ionizing radiation. It then assigned frequencies and modulations for use with cell phones, in part, based on those assumptions; assumptions which are not valid.
6. The two attached articles that have been published in the scientific literature indicate the nature of the problem with the FCC's decision making regarding cell phones ("Cell phone health risk" and "On the safety of cell phone radiation"). There are many more articles, by me and others, that are available in the scientific literature that show that the FCC's assumptions are not justified. Thus, the FCC has placed the Public at risk in what amounts to a grand experiment with their health, without their informed consent.

Allan H. Frey
