

Please do not raise the FCC standards. You can see from the chart below that our country is second to last to Canada!

#### COUNTRY EMR SAFETY LEVELS

1. Austria 0.10 microwatts/cm<sup>2</sup>
2. Lichenstein 0.10 microwatts/cm<sup>2</sup>
3. Russia 10 microwatts/cm<sup>2</sup>
4. Bavaria 10 microwatts/cm<sup>2</sup>
5. Hungary 10 microwatts/cm<sup>2</sup>
6. Italy 10 microwatts/cm<sup>2</sup>
7. France 10 microwatts/cm<sup>2</sup>
8. Switzerland 10 microwatts/cm<sup>2</sup>
9. Australia 200 microwatts/cm<sup>2</sup>
10. U.S. 900 microwatts/cm<sup>2</sup>
11. Canada 1000 microwatts/cm<sup>2</sup>

<http://blog.listentoyourgut.com/wifi-radiation-exposure-safety-limits-per-country/>

There are far too many ?peer-reviewed? studies showing harm and danger from EMR and low levels of radiation [www.bioinitiative.org](http://www.bioinitiative.org) and I?m sure you will be receive many.

If one is old enough to have been able to observe the general state of things, it is easily recognizable that our world is in deep trouble and something that keeps it there is fueled by peoples? fascination with all things wireless. When I consider the rapid growth of; children with Autism, women who are having trouble conceiving, the explosion of neurological illnesses in the elderly, it is difficult to understand how our country has allowed this to happen. I see how it began back in the 1970?s or so with the advent of transistor radios and has now exploded to enormous proportions. It is now out of control. With the notion of Capitalism came selling radio frequencies and now we are literally swimming in these electro-magnetic intrusions into our body?s 100,000 trillion cells and destroying the ability of biological beings, yes, all of us, to reproduce healthy children. It means the end of all species, including ours?.

Take a leaf from other countries? standards beginning with the top two. America should never be next to last in anything.
