

Please stop this absurdity on our tv networks. Due to our economy many families have both parents working in order to pay the bills. If a child is left unsupervised due to this or for any other reason.....just a 1 minute departure from the room by a parent, horrible things can be seen by a child. Let's keep our children innocent. Let them enjoy their youth. Let's stop the horrific sex, violence, nudity that only a few choose to put on tv due to influence, wealth and greed.
