

I remember when I was a child, the closest we got to looking at porn was the cross your heart bra. Today a parent has to close the eyes of their child to protect them from the filth that is bombarding our networks, its not just HBO or Showtime, but it is all the regular networks, and then we look at our young people and wonder why that they are so perverse, that rape and child molestation is at a all time high, that there is no more respect for our young ladies, because our young men are looking at MTV, admiring all these rappers( young men and young ladies) disrespecting each other, calling them out of their names. Our prisons are full of young people that were not raised by their parents but by that idiot box that we call television, this is unfortunately due in part that today both parents have to work just to maintain a household, we can do much better than this, lets try to put some positive encouraging programs that will speak to the heart of our young people instead of putting garbage that produces death.
