

FCC-

As a father with a young boy I find it absurd that the FCC would consider "loosening" guidelines/restrictions that would allow even more filth to be put on TV. It is almost impossible already to watch TV without having to avoid half the channels due to the persistent immorality and profanity that is broadcast daily. It is becoming even more difficult to raise a child in this world to be a man of faith and to learn respect, these changes will continue leading our country down the path to destruction. Please don't allow these changes to happen.
