

In regards to FCC 13-86: I find that it's about time the US Government loosen the indecency rules on broadcast television. The remainder of the world has far less stringent rules on broadcast rules and we do not find those countries to be havens of immoral behavior. I recommend the FCC proceed with loosening the rules to allow profanity, nudity, and indecent material... to an extent... on broadcast television during all hours or expanded hours.

Thank you,

Joseph Lange
