Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

The innocence of my children is at risk enough in the daily world, I don't need it invading my home through the tv. I think that breast feeding images, such as a recent Luvs commercial is okay due to the fact that no actual nudity is shown, so if this expansion of nudity is under the guise of breast feeding more nudity would not be necessary to show more breast feeding.

T.V broadcasting has degraded family values and American morals enough that we see the results in our courts today. Please do not contribute to this degradation any further.

I do not agree with nudity in any form on national television. If we agree with this, who knows what they will require in the future.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

When I became aware of this proposal, I was disgusted that such topics would even be considered. Since when was it a good idea to allow vulgarity and sexually explicit material on public channels? I think the real question is if these are wholesome and good things for kids to watch why didn't we allow them years ago? But if they are not (which I wholeheartedly believe they aren't), why should we even be considering them? It doesn't make any sense to encourage behaviors that society rejects. I am vehemently opposed to any action by the FCC that would lower the standards for broadcasting companies.

There are enough stations that cable, direct TV, etc that carry R and X rated programs that one can buy that we do not need any more on the main stations. General family viewing without the worry of a young child or teenager walking in on an inappropriate scene should still be the main objective of the FCC. Pushing profanity and nudity are not what I would call good standards.
Please do not allow the FCC to change the decency laws.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies. I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC must not weaken them to allow even fleeting instances of more profanity or nudity. There is already too much. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. They are young and innocent for such a short time. Please don't relax these standards. It will lead to greater vulgarity and sexuality on prime time broadcast TV.

Comment: This is a response to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress, UNLESS such standards increase regulations on indecency. As a parent of four young children, I am constantly appalled at the content of today's television programming - even shows intended for children. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. Why don't you try raising the standards on indecency" Recent studies have shown that programs which have high moral content have played exceptionally well, both in theaters and on television.

Indecency during the time families are generally watching broadcasts is especially egregious. Children are being taught that morality is relevant and situational. Now they are being taught that immorality is the norm. Does anyone remember Rome"

Will the government, namely the FCC, fiddle while the US burns" God forbid. Do your job. Keep the sophomores who put this stuff out from running the society. They just may push us over into destruction.

Please don't do this... the commercials for horror movies and shows is bad enough.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress.

Broadcast TV, since it became embedded in American society, is responsible for the debasing of our countries morality, values and the increasing our crime rate. Broadcast TV, as well as the film industry and video game industry, has immunized our citizens to violence, drugs, abnormal sexual acts and crime.

At the same time, Broadcast TV is quick to misdirect American's understandable concern when violence does occur. A good example of this misdirection would be jumping on the ban guns routine when a crime is committed with a gun. Yet at the same time, in their TV Broadcasts, movies and video games they have 24 hours a day promoted murder, kidnap and violence with guns as cool, sexy and heroic. There were guns before the 1960s and before the popularization of Broadcast TV. We did not see all of the violence and destruction happening then as we do now.

This action by the FCC is a classic act of cronyism - big money versus the long term health of the nation. The American people are getting tired of business as usual and being pawns for the benefit big business, big finance, bureaucrats and politicians. Are there no Statesman left in America" Who will stand up and say "You know it is not all about me and what I want or my business friends want"" What real benefit to the American people can come from this change"

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

We'd also like action taken against the AMERIKANS cable TV show for showing sexually explicit scenes and instances of nudity all of which is not necessary for the storyline.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The airwaves for media broadcasts are available to everyone - including children. Broadcasts over private channels are available to those that pay the subscription price and know what the content is or can be. Let it stand as is. Let's not decay into a failed Roman empire where morals were totally eliminated. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Children are exposed to far too much already.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. Citizens have plenty of opportunity in our society today to witness nudity, pornography, profanity and vulgarity. The FCC should not provide more opportunity for crudeness but should protect the airwaves for those who want to watch television with their children or spouses without being embarrassed. Yes we can always change the channel, but their are fewer and fewer choices. If the government can keep people from smoking in their own business (I don't smoke) they should also be able to protect some level of decency. Here is an observation of where we have come to. It is easier to find the name of Jesus in profanity than in any reference to him as even just a historical figure in network programming. Stand up and ask America to do better.

Comment: In an age when sexually transmitted diseases are nearing pandemic proportions in the United States and smut on broadcast media is affecting families, individuals and victims of sexual predators, it is insane to glorify wickedness even further.

America is fighting for the heart and soul of its youth who can't seem to find real heroes anymore.

The FCC should fulfill what the goal for which it was established guarding our airwaves and if it fails, should be eliminated.

The decency standards have needed to be enforced and made tighter to bring a moral standard back to what we watch. Currently there is six neighbors who no longer have television service and who are selective on the movies they allow their children to watch. If this is happening nationwide why isn't that sending out a message.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. If anything they should strengthen them and allow less vulgarity and cussing. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies. There is too much vulgarity, profanity, and nudity shown on the network broadcasts already without relaxing the standards even more. The foul language and suggestive situations allowed today are insulting to adults and definitely inappropriate for children. I'm requesting that the decency standards be brought back to higher standards that allows no vulgarity, profanity or nudity of any kind. I'm ashamed of level that our country has stooped to; why would anyone who loves this nation want to allow material that brings down the moral fiber of our country even more"

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that would allow more nudity and vulgar and foul language. Not only should the FCC not weaken these standards, but these standards should apply during all daylight hours until 10:00 P.M. To allow even fleeting instances of profanity or nudity is not how our children need to be educated. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Sincerely
Daniel Honrath

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Our country and next generation do NOT need that. I ask that you NOT relax the present standards.

Please forward this to all your mailing list. We have to stop the continued push to do away with morality in this country. As an elementary school teacher I am already seeing the effects of lax morality. Believe me this new proposal is creating devastating effects on minds that are too young to handle this sort of thing. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV and more violence in the real world.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

The FCC has requested comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I OPPOSE any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.
I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I STRONGLY oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV and abroad.

Television programs with crude language and sexually suggestive language and acts are already encroaching on the time families gather to watch programs. Can you imagine what relaxing the standards will do!

Additionally leave our First Amendment rights alone in your "Diversity Czar" Mark Lloyd's effort to shut down all of talk radio, all religious broadcasting, and all dissent against the Obama Administration.

Comment:  I cannot imagine that you would even be considering such a radical change in policy. I appose in the strongest possible terms to allow profanity or any nudity on broadcast tv, but especially during the family hours.

Comment: With all of the garbage (profanity and sexuality and perversion) that is broadcast now, even in the family hours, I don't see how you even have the nerve to consider loosening broadcast decency standards. Are you blind to how you are contributing to the disintegration of our country"

Of course, I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. It would be in our country's best interest if you would tighten the standards.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I vehemently oppose any action on the part of the FCC to allow even fleeting instances of profanity or nudity at any periods of the day. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching, which with the availability of today's wireless devices, gives kids greater access to broadcast medium at any time of the day. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity, it is almost impossible now to find a family friendly show on tv. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. People used to wonder where kids picked up some of the things they said now, it is being common language on tv. Please keep the trash off tv.

I oppose ANY changes to the broadcast decency standards that would permit increased exposure to any of the above. In fact public television should NOT have any nudity.

Where is the line that makes it "too much" sex or indecency or vulgarity or nudity. Why do we have all of the public issues with these...don't we have enough actually, TOO MUCH of it already

I oppose ANY changes to the broadcast decency standards that would permit increased exposure to any of the above. In fact public television should NOT have any nudity.

We are already receiving too much indecent viewing, sex scenes, vulgar language. What has happened to decency and respect for others? We don't act this way in our home and we don't want it to be shown in our home.

We have set a commission in place to protect American citizens from indecency over the airways. That commission simply needs to do its job... not make efforts to squeeze around its obligations. This nation and its time-honored values are eroding at every turn; we do not need one more "nail in the coffin." Keep things simple and stop trying to compromise the wholesome standards that Americans so desparately need and want.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should absolutely not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Broadcast television is open and available to the public, and it should not be allowed to push the envelope of indecency in that open setting. Please protect the innocence of our children. Thank you.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies - comments that are due on May 20, 2013. I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV which already has too much from my point of view!!

So - please do not weaken the standards. And PLEASE follow up and act on the many complaints that have already been filed!!

This would be so awful and shameful to have programs with sexual and rotten language as they would want it. That's what you have in certain cable channels.

Myself and many other people that I know have to turn away from cable channels to get some nice positive programming. I even watch the retro channels to get the old wholesome programming. So please continue to have the prohibition on the programming.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Myself and many other people that I know have to turn away from cable channels to get some nice positive programming. I even watch the retro channels to get the old wholesome programming. So please continue to have the prohibition on the programming.
I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment:  I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. Not only do I OPPOSE any changes to the broadcast decency standards that have been enacted by the Congress, I strongly urge you to STRENGTHEN and enforce broadcast decency standards.

We already have waay too much vulgarity, nudity, and foul language at it is, and the FCC should not weaken its decency policies to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. (And we wonder why the country is going down the tubes!!)

Since lowering the bar in the sixties there has been a progressive problem with juvenile sexuality including increased pregnancies and sexually transmitted diseases. Not to mention a corresponding decrease in academic performance and parental control.

As a pediatrician, I can attest that allowing children to be exposed to nudity and profanity is not in their best interests.

American television does an excellent job of providing wonderful children's programming; however, after this, American television in general completely drops the ball, allowing bewildering and immoral behaviors to be shown. The FCC needs to be accountable for showing only uplifting and inspiring programs for families.

It is inevitable that this slippery slope will, within a relatively short period of time, result in even more relaxed guidelines. The end game being broadcasting of hard core pornography on the public airwaves.

And if it is not a good idea, why do it. What is the gain/improvement? This is one more boundary to be pushed that will lead to another and simply add to the national moral decay. There is nothing beneficial to be gained by allowing more profanity and nudity.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

I strongly oppose any changes to the broadcast decency standards that have been enacted by Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. Broadcasters already have "pushed the limits" and will continue to do so.

There is already too much exposure to low standards of behavior. We don't need a further lowering of standards.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. The content of many shows is already too raunchy and inappropriate. There are very few network shows that we feel are worth watching due to poor quality writing with foul language and sexual content. Children need some protection from this early sexualization that our society is pushing on them.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

We see an increase in violent sexual behavior which arguably can be seen as influenced by the increased sexualization of our culture.  Please maintain the standards and do not be party to the increase in behavior that can be influenced by the behavior of TV personalities.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity.

In fact, there is already too much profanity and nudity on TV and the negative effects of this is reflected in our culture already. We don't want it to get worse than it already is. Don't you realize that vulgarity on TV directly contributes to damaging actions and influences people to act in a vulgar way themselves" FCC should care about our culture and the influential effects of TV on children and even adults.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Please uphold the highest standards. We have already severely restricted viewing in our family because we don't want these influences. Many of the people who are influenced by TV are those who already don't have good influences in their lives. Please don't make things worse.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV and what currently is shown on TV already goes too far. The bar does not need to be lowered; it needs to be raised.

Comment: As a father of five children, I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. Instead of weakening the standards, the FCC should be strengthening them against profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. It serves no purpose to allow vulgarity on broadcast TV, especially during the hours most watched by children. Parents cannot monitor TV viewing 24/7, and as a country we need to be responsible for protecting our children from vulgarity. Let us not stoop to the lowest denominator or the basest mindset, but establish regulations that do not weaken us as a nation.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

And FAR from "relaxing" the current standards, I am asking FCC to TIGHTEN these standards to reflect INCREASING MODESTY in thought, dress, and language on ALL broadcasts, at ALL hours of the day, for adults AS WELL AS children. Adults needs to model ALL that is good and appropriate to their children.

Thank you!

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. This relaxing of currently set standards not only affects children, but adults as well. My wife and I are already uncomfortable viewing and hearing instances of profanity and nudity that we wouldn't allow in our home. Further eroding of these standards would cause us to limit or eliminate our viewing broadcast TV altogether.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I am VEHEMENTLY opposed to any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. It only takes a moment to impress a young mind. And.....they never forget. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. How much more can our country take" Inch by inch we have allowed our once great nation to deteriorate into a society of indifferent, self-serving, Godless robots. Please think of the ramifications this could have on our children and grandchildren.

I also point out that our TV message is spread all over the world, especially to the Muslim world, which calls the US the Great Satan. To allow more depravity to be telecast will only serve to justify Muslim condemnation. Ask yourselves, "Do we approve an image of American culture that degrades our standing in the world" I hope not.

My daughter and I went to see a movie just last week. We both looked at each other and got up and walked out. The language was a disgrace. Is this what we are coming to? People can't express themselves anymore without using foul language. I heard a teenager use the "f" word with his parents and they didn't even blink and eye. Back to the movie. As if the language wasn't enough then comes the full blown nudity and then the sounds of a couple having sex that went on and on. I have no idea what pornography shows, but if this wasn't pornography God help everyone.
I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC definitely should not weaken them to allow even fleeting instances of profanity or nudity. Since the Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching, there is no reason to relax these standards. That will only lead to greater vulgarity and sexuality on broadcast TV.

Allow the children to stay as innocent for as long as possible. You horrible horrible people who think it is okay to show children nudity and profanity. You should be horse whipped.

A personal example of why this is so important to my family was the program commercials during last year's summer olympics. I was shocked and very disappointed at the inappropriate content in those commercials. It is unacceptable that our country's children cannot even watch the olympics! Something needs to be done and decreasing the decency standards will only make it worse.

If anything, I think the standards should be more strict.  My family does not even watch network television, because of the moral degradation, excessive advertising and worthless content.  This country is storing up wrath against itself for the day of God's judgment.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC’s request for comments on possible changes to its broadcast decency policies, such comments being due May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. Relaxing the standards will lead to more vulgar and profane content which should not be allowed during hours when children will be watching. The Supreme Court has recognized the FCC’s authority to prohibit indecency. I request that the FCC use its authority in this matter wisely, not bowing to the evils of society which choose to corrupt the innocence of our nation's children.

The FCC SHOULD NOT AND DOES NOT HAVE THE AUTHORITY to weaken them to allow even fleeting instances of profanity or nudity.

The coarsening of our culture has degraded childhood, the absence of modesty has our young girls dressing like prostitutes and movie actresses.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

MANY OF THE SHOWS AIMED AT CHILDREN ARE COMPLETELY INAPPROPRIATE! PLEASE DO NOT MAKE MATTERS WORSE!

You may say people could switch off and watch Cable. BUT The reality is that it is the POORER in our community who would be most affected. Whereas more affluent parents can afford cable and high cost speciality stations the average working class parent cannot. So those children and youth who have NO CHOICE but to watch Broadcast TV as well as Elderly who are shut in will be faced with even less FAMILY FRIENDLY options...

ENOUGH IS ENOUGH.. STOP THE DECAY IN DECENCY!!!

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress which would allow for the increase of indecency on television shows. The FCC should not weaken the standards to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality than already exists on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. The scantily clad woman in black underwear straddling the man in the chair on the last episode of Revolution was already a violation of decency. I oppose any changes to the broadcast decency standards that would make them even more lax, especially during family hour when children may be watching. Relaxing these standards will only let in the "rest of the camel" of vulgarity and sexuality on broadcast TV. Try holding the standards in place and forcing the networks to come up with decent programming worth watching rather than defaulting to sex and shock to hide their bankruptcy of ideas.

Please keep broadcast standards where they are at right now. It's taken years of compromise from many sides to form the current consensus and the last thing we need is another divisive issue. Do not relax or tighten current standards and practices.

Thanks,

Tony Parker

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. As in litigation both sides are entitled to strong representation. Hollywood has it very strong advocates, and the FCC is the advocate for the people. If you give up and slacken your representation of decency, who is left to defend us, the people.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

It has gone way to far already. It is really sad to see what is allowed on our televisions today. Please ask yourselves if this is what you want your children and grandchildren watch.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.
Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I already have stopped watching many programs because I feel they have already gone too far with indecency along with too much violence! The moral fiber of our country is slowly being chipped away and making it harder and harder to find anything appropriate for family viewing, please don't let this continue!!!

Someone has to step up and be bold enough to say that these lowered standards and NOT in line with the mindset upon which our forefathers founded this country. Yes, things are changing. Are they changing for the better" In the eternal future, you're going to have to answer for why you made the decisions you did. Please make the right one now.

I am responding. I oppose changes. No nudity. No profanity. Let us turn back the clock to more decency, more love, more consideration, more politeness. How are we ever going to change our society for the better if we don't"

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

I oppose any relaxations to the broadcast decency standards that have been enacted by the Congress. Protect the innocence of the innocent. Relaxing standards will promote vulgarity and sexuality on broadcast TV. The FCC should not weaken them to increase profanity or, especially, to allow even fleeting nudity.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children will be watching. So, prohibit it!

Yours truly,

Jesse Meredith

Rather than making filth more prevalent why don't you act like you are truly honorable and professional people with not only responsibility but also accountability. Clean up the foul language and the explicit sexuality and the gross nature of so much of today's broadcasting.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. I do not want my young children exposed to profanity or nudity, even for a "fleeting" moment.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Thank you in advance for considering the viewers and not just the broadcasting/advertising industry.

Comment: I am writing to respond to the FCC's request for comments on the possible changes to its broadcast decency policies that are due on May 20, 2013. I am not in favor of any changes that will lower broadcast decency standards that have been enacted by the Congress. I do not believe there should be even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. There are also adults who have no desire to watch these things either. Relaxing the standards will only lead to greater vulgarity and sexuality on broadcast TV.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. There is no reason to send profanity or nudity unwelcomed into the home. The home is our place of safety from whatever we desire. Nothing should come in unwelcomed.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

This is not what we need in our society.

I find that even the commercials for the shows which air during the evening dinner hours when children are watching are offensive and should be edited. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Two of the most-watched shows this past season were Duck Dynasty on A&E and The Bible series on the History Channel. That should tell you what viewers really want on TV.

Comment: When I heard that you/the FCC are considering changes to the broadcast decency policies/standards enacted by Congress, I was eager to respond.

The way I see it, what comes across our airwaves, into our homes, our cars, our workplaces, OUR LIVES becomes an important influence and model for our and our children's behaviors. We see or hear things on TV, and pretty soon it seems acceptable for us to do the same. All of us need help to keep our speech clean and our minds reaching higher, thinking great thoughts. We don't need help from the TV to encourage us to hang out in the gutter with our speech, our attitudes, or our goals.

If the current standards need any changing at all, it would be to tighten them up. The FCC is in a position to help make this country a great place, or to keep pointing our people to the gutter. Please, consider carefully.

Please do not weaken the standards to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. How does that help any of us, let alone our children"

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. I don't like what is allowed now let alone after Family Hour. Why do we have to regress"

   I am saddened to see our ONCE GREAT COUNTRY go down the drain. That is exactly what is happening. I will never forget the words from a couple of prominent men from other countries France & Russia who said that when the morals of America go that that's when America will go.

   To think that there is so much talk about guns when it is the violence on TV & the video games that are causing the problem. When aids came on the scene you thought that that would stop the sexuality & pornography, instead it escalated along with the gay stuff. The health care will go through the roof with all the diseases that will come as a result of all this sex & gay programs on the TV. GOD HELP AMERICA!!!! Then again why should He. We have taken Him out of everything!!!

Comment: My husband and I appeal to the FCC to not make any changes to broadcast decency standards enacted by Congress. There is NOTHING wholesome about having nudity and profanity in television programming. It is offensive to us as adults, and we certainly do not want our grandchildren exposed to indecency during the hours they may have access to the television. Relaxing the decency standards will only lead to greater vulgarity and sexuality on broadcast TV. This has already been proven over the last couple decades.

Sincerely,

Judith Sevits

The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

The effect on children and families will be quite negative; I encourage the FCC to do what's best for families and maintain the current decency standards.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any downgrading changes to the broadcast decency standards that have been enacted by the Congress. Why would you even consider making things worse than they already are? Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies. I understand that comments are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching.

We've already lowered public decency standards below that level where most parents of small children would be comfortable. Relaxing these standards still further will only lead to greater vulgarity and sexuality on broadcast TV. We should be tightening the standards rather than relaxing them.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

It would be nice to watch a good mystery show without vulgarity or sexual content. The shows that are on are good, they would be MUCH BETTER WITHOUT THE VULGAR LANGUAGE AND SEXUAL CONTENT. I have had to change some of my viewing habits because the language and content.
I very seldom watch the major networks because of this reason.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I am amazed that anyone would want to weaken the already lax broadcast decency standards that have been enacted by the Congress. The FCC should not even fleeting instances of profanity or nudity. Families who are not entertained by such indecency should not have to be exposed to it and should not have to fear their children seeing or hearing such unwholesome material. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. In fact, I would submit that the current standards are too lax as is and I'm tired of trying to explain what all the 'ED' commercials are about to my 7 year old. My family already doesn't watch network TV because of the filth that is portrayed as entertainment and since we are ultimately in charge of the power switch, we will take control of the situation if you fail to. However at this point in American society, can you really tell me that further dropping our standards is the right thing to do" I think not.

There are things on TV now that are so crude and vulgar, we rarely watch it anymore ....The sit-coms are disgusting & rarely is there anything wholesome on in the evenings, even for adults! Stop all this mind pollution - we will have a better and more moral country for it!

I will go one step further and encourage the FCC to step up enforcement and impose fines on even minor cases. I cannot sit down with my grandchildren and watch TV for the foul language and sexuality that goes on.

Hi, I am the mother of six children and I will be appalled if you loosen the standards any more on what is acceptable on television. It is already too extreme. Already we do not allow our children to watch commercials unsupervised in case they contain questionable content. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.
I am writing in regards to the FCC’s request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. If Congress enacted it and the Supreme Court recognizes it then why in heavens name would anyone try to change it? Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. For those that want trash there is plenty of other sources. Please consider those who actually want to protect their children from indecency.

I consider the idea that the FCC is even considering lowering the decency standards offensive; the last thing I and my family want on the radio and TV waves is the guttural tripe ema mating from Hollywood or emulating their idea of family entertainment.

Thanks for your attention.

Comment: I'm writing to object to the FCC's possible changes in broadcast decency standards. I oppose any changes, especially to relax the amount of swearing and nudity that is allowed. There is absolutely no good that can come from allowing these standards to be lowered. Thank you.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.
I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I strongly urge you to uphold the current FCC laws.

Why are you considering lowering the standards of what is viewed by the public? What is wrong with present day standards. There are enough questionable scenes already shown. Our youngsters have enough problems understanding the moral problems of our society.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. TV standards of language and sexual decency/indecency affect our culture to a major degree already. Don't lower your standard, and then sit by while all of America lowers its standards of acceptability accordingly, until there is no farther down to go. If any of you are parents, then just think about the standard of what you would like to see paraded before your 7-year-old's eyes and ears - you can be sure the viewing public care at least as much as you do (and perhaps more) about what affects their young children.

Lowering your decency standard would not contribute anything helpful whatsoever to American life and family health. Don't do it. Please!

Thank you.

Comment: We want to respond to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. We oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Rather than lower their standards further, we would hope they would tighten up their standards and allow even LESS of this type of programming. It is appalling to us as adults and we certainly do not want our children and grandchildren to see such things on TV at all at any time during any hour, let alone during the "Family Hour".

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. I believe that the decency policies are already too lax and liberal. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The should make them stronger and more restrictive, especially during the 'Family Hours' before 11 pm. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater violence, vulgarity and sexuality on broadcast TV.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

This country needs "someone" to look after the interests of individuals who are being assaulted by the "filth" that is being spread in every area of life...in the name of "progress". When will it stop, the ball is in motion and if you allow this, the momentum will pick up. Children are being taught that it is OK to do anything you want, and tough luck for those who don't like it.

Comment: I understand that the FCC is considering possible changes to its broadcast decency policies. I strongly oppose any changes to the broadcast decency standards unless it is to make them MORE restrictive. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. This has no place in a polite society. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Our nation needs more civility not less.

Please do not make any changes to the decency policies. We do not need any more vulgar language or nudity on TV especially during family TV hours or at any time period! We hear enough of that every day without having it in our home during TV time.

America's decency standards are already in great decline. Please don't take any action to push them further in that direction.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

The public airwaves need to be cleaned up there is no reason to allow swearing, sex acts or other vulgar and profane content on tv....... anyone who wants that can get all they desire on the inter-net.

Comment: I wish to go on record as being strongly opposed to any attempt to lower the current broadcast standards enacted by Congress. The standards are already too low. The FCC should not be permitted to weaken them to allow even the briefest instances of profanity or nudity. The language allowed already is bad enough and the words deleted are done so in a manner that makes the words obvious anyway. And there is already little left to the imagination in sexual situations sent over the airwaves. How does one portray "non sexual" nudity, anyway" Who is kidding whom"

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. If the current standards are further relaxed, there will be very little left on broadcast television worth watching - individually or as a family.

It is quite obvious that any further relaxing of these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Please. Do NOT relax them any further. Further strengthening would be the better way to go.

There are already too few family friendly shows, and if it gets any worse I guess we'll have to pitch the TV all together.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Nudity and profanity do nothing positive for our society. It is my sincere opinion that we should do all we can to limit them from the public airwaves, without becoming overly intrusive and violating peoples personal liberties. Thank you.

Comment: Its bad enough as it is. I hear language and topics and I see things we NEVER saw even ten years ago. Lets keep America great by holding some standards about what goes on our airwaves; lets not bow to those who want a quick buck and don't really care what garbage they "produce".

One more comment to add to the above: We see our nation descending ever deeper into coarseness and lack of decency. Additional examples of this on television will only increase the trend. Please help reverse this downward trend!

Greater vulgarity and more sexuality on TV is not good for children nor for adults, for that matter. It is bad enough right now; TV is providing us a rotten sewer to swim in. Do the right thing, and leave these standards, such as they are, in place.

When I was singlehanding on the Great Lakes, I trusted my safety and survival to my radio and the policies, regs and judgment of the FCC which licensed it.

Given the judgment noticed in the above, I would no longer dream of doing so.

Comment: ABSOLUTELY NOT! What in the world is the FCC thinking! ... Apparently, not thinking very clearly. :-/
NO, NO, NO ... a thousand times NO!

We are responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

We 'OPPOSE' any changes to the 'broadcast decency standards' that have been enacted by the Congress. The FCC should NOT weaken them to allow even fleeting instances of profanity or nudity.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

WE definitely OPPOSE any relaxing or change to the current decency policies.

Additionally, I would like to add that much of the moral decay of this once former great country is due to these types of actions requested by the FCC. There was a time when 'rape' did not seem to be an everyday event, but in light of the reduced standards being proposed, I expect that 'rape' and other heinous acts will become more commonplace. The enemies of America could not destroy this great country, but now it appears that we will be the cause of our own self destruction.

Comment: We have 5 children under 10 years of age in our family, and their access to TV, radio, and internet is strictly monitored. But we can't assure the same degree of adult supervision when they visit friends.

Even under today's standards, I'm amazed at the words, pictures and concepts that are permitted on the airwaves during prime time, and sometimes feel forced to discuss content with children before they are developmentally ready.

Please do not undercut the little protection we now have for children.

Thank you.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: This E-mail is my response as requested by the FCC for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

The FCC should not weaken its present policies to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

America has been steadily declining in its support of families, the building block of the nation. Weakening these rules will accelerate America's moral decline. Then we ask "why are teenagers so sexually active vs. fifty years ago" FCC should protect the innocence of youth not erode it.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. We believe that the current broadcast decency policies already are too relaxed and offensive.

We don't need to be further desensitized to the base and immoral climate in our culture. As the media goes, so goes our culture. Stand firm.

As it stands now, even with so many shows on TV, there really aren't that many good ones. And if the show is ok, the commercials aren't or the ads for other shows aren't. WE DON'T WANT THIS STUFF ON TV AT ALL, much less during traditional child watching times. Frankly, 3 pm to 10 pm ought to be only decent, child friendly shows.

Take the hint; next we will work on getting rid of violent movies and TV shows. They certainly aren't good for the public good. Please uphold standards to protect all of us from indecent material.

As a mother, I could tell when the "family hour" was over almost immediately. I would quickly turn off the TV. My children are older now, but other parents should not be blindsided by "fleeting" nudity or profanity.

Thank you.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Where do stop and return to some common sense "God have mercy on America..."

As a senior citizen, my husband and I watch only one TV show on Friday night, Fox News, EWTN and DIY channels otherwise. I don't want to even see the advertisements for certain Prime Time TV as they are pervasive, suggestive and crude. Keep TV clean. Our young children, teenagers and young adults are confused about what is right and wrong in various situations that occur on a popular show or are insinuated. The industry must be responsible for what is created, viewed and taken to heart.

Comment: The static comment below is far to week, The FCC should remove all profanity and sexual acts that reveal any part of a human body. It promotes sex crimes even among the children it is not the job of the broadcasting companies to provide sex education to the world that is reserved for the parents of the children.

Comment: Regarding the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013: I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. Why would there be a move to push back now"!

The FCC should NOT revise standards to allow even fleeting instances of profanity or nudity. Programmers have shown they will push the limits to make shows more lurid. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be listening or watching. Relaxing these standards will only lead to modeling greater vulgarity and illicit sexuality on broadcast TV.

I strongly oppose any changes to the broadcast decency standards enacted by the Congress that would allow even fleeting instances of profanity or nudity.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. The need to use profanity and obscenities indicates a limited vocabulary and those who use this kind of language should be replaced with people who are smarter.

What is the purpose of nudity" Why should it be necessary to excite sexual energy to have a good program.

I have two young children and have worked with thousands of them over the years in my job. Specifically, I work with Jr. high students and the issues the struggle with are always compounded when they have been exposed to nudity and obscenity in words or images. As a side note, whether or not the nudity is sexual in nature doesn't really matter. We are sexual beings and when boys see nudity, it becomes sexual in their minds. With all of us appalled at the rising trafficking of young people why should we let TV contribute to the increasing instances of sexual activity on the streets by inviting it into our living rooms. So again I plead, do not allow changes to the broadcast decency standards that have been enacted by Congress.

I am a parent, and an educator, and am appalled by the devastating effects of relaxed moral standards on the physical and mental health of children and young people, and on the community overall. I plan to keep current on this matter and use my position in the community to help other parents and educators stay aware of the situation.

So if the FCC wants to relax all the rules why should the FCC exist. We can reduce the size of the FCC and just have an agency that issues licenses to broadcasters.

Comment: I am very distressed to hear about the changes to its policies that the FCC is considering. Even quick or few instances of profanity or nudity should not be allowed. Would you allow a naked man to run through your living room in front of your children" That is what you would do to many, many homes if you lower the standards.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am so sad and upset at your constant lack of respect for those who do not wish to see nudity and profanity in our homes. Please respect our wishes to not go any farther than you already have, which in my opinion is way too much already. If they want to see nudity make them go rent those kinds of movies. I am already down to only watching about four shows a week because of the violence and nudity. Comment: Thank you for allowing public comment on the issue of possible changes by the FCC to its broadcast decency policies that are due on May 20, 2013. Such proposed changes to the broadcast decency standards that have been enacted by Congress make me heartsick. Weakening them to allow even fleeting instances of profanity or nudity during the hours when children may be watching can only add to the vulgarity and sexuality on broadcast TV, and further exploit the innocence of our children! The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. I strongly oppose relaxing these standards!

There is no need to expose the public to more degradation - studies show the coarser the language and the more pornographic the images the more violence and promiscuity in the culture. As evidenced in the daily news reports we don't need to encourage those activities in our culture.

We already have vulgarity in many of the commercials shown on TV., and it is very hard to raise good moral children when they are exposed to such garbage. Please stand up for decency, especially during prime time viewing times.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

I am writing to let you know that our family opposes any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I am greatly concerned about the things my children might possibly be exposed to if the current standards are changed. As parents, it's hard enough to monitor everything our children see and hear. This would be a major change that would put completely inappropriate content in front of our young children. Our family opposes any changes and we ask that you please do not relax the standards that are currently in force.

I am writing to let you know that our family opposes any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I am greatly concerned about the things my children might possibly be exposed to if the current standards are changed. As parents, it's hard enough to monitor everything our children see and hear. This would be a major change that would put completely inappropriate content in front of our young children. Our family opposes any changes and we ask that you please do not relax the standards that are currently in force.

I am in full agreement with the statement below. This would be a "can of worms" and anyone who thinks otherwise is either foolish or deceived. Please do not permit this to go forward.

There is no reason to add any more indecency than we already have. Thank you.

Why "open the door" TV is already bad enough.
Thank you.

It seems that there are fewer and fewer "clean" shows that I care to watch because of the language and sexuality. It's bad enough for such shows to be aired in late evening, but I resent the intrusion, especially during the earlier hours. Years ago I had a teacher who told us that when people "cuss" it's because they aren't smart enough to say anything else. Is that what we have become"" Please do not weaken! Thank you.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and degrading sexuality on broadcast TV.

I am writing to let you know that I oppose any changes to the broadcast decency standards that have been enacted by the Congress. Since the FCC has requested comments on possible changes it is proposing to its broadcast decency policies due on May 20, 2013, here are mine. The FCC should not be allowed to weaken the existing standards to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Is this what we need in our country now? There are more pressing issues to deal with. Please do not allow any changes to be made to the existing standards.

I have taught my children that "bathroom talk" belongs in the bathroom. Nudity belongs in the bathroom or bedroom...NOT on television where young children will be exposed to things they don't need to see.

Please protect children from nudity and vulgarity. It doesn't improve their lives or futures. Even adults don't NEED that kind of entertainment. So many marriages are being ruined by the addiction to pornography that is ensnaring so many people.

Comment: Are you kidding me" You're considering relaxing your policies even more" It's hard enough for my husband and I to find decent shows to watch as it is. Not to mention finding shows our children can "safely" watch.

Frankly, I'm disappointed that this is even being "put to a vote."

Is there any modesty, tastefulness, or CLASS left in this world""

Comment: I understand that the FCC is considering changes to their broadcast decency policy intended to loosen current guidelines. I understand that the FCC is requesting comments from the public up until May 20, 2013. I personally oppose any changes to the broadcast decency standards that have been enacted by the Congress, as these are already too lenient. Profanity and nudity are not required to produce an enjoyable program. Since the Supreme Court recognizes the FCC's authority to prohibit indecency during hours when children may be watching, the FCC should stand their ground and uphold the current guidelines. The last thing we need is an increase in vulgarity and sexuality on broadcast TV!

Comment: I have recently heard about proposed changes to the broadcast decency standards enacted by Congress and am writing to ask that you allow the standards to remain as they are.

Having worked with children for several years, I am concerned about the effects of exposure to profanity and nudity on one of the nation's most vulnerable populations. With the changed policy, young children would face issues that they are not yet equipped to handle in life. No one would want to hear profane words or see certain types of behavior from toddlers, but children mimic what they have seen and heard. Older children, having been exposed to these scenes and words over a long period of time, would begin to speak and act in the same ways as their television role models. Lowering broadcast standards on television would be detrimental to our nation's children, encouraging them to pursue paths not in their (or society's) best interest.

This change in policy would also concern me because of my faith. As a Christian, I believe that there are standards of right and wrong. The Scriptures also teach me that I must never cause another person to do something that is wrong or that violates his God-given conscience. (Matthew 18:6 teaches that one who causes children to sin is guilty before God, and 1 Corinthians 8:13 says that I should not do anything that would cause another person to violate his conscience.) I believe that profanity and nudity on television would cause many people to see, think of, and act on scenes and ideas that would harm their consciences before God and violate His law.

Please give serious consideration to the effects that this new change in policy would have on the nation. Specifically, I would ask that you consider leaving the current standards in place.

Thank you for taking the time to read this.

Comment: I am a mother, trying to raise my children to be respectful, responsible, moral adults. The FCC should not relax the broadcast decency standards to include nudity, more vulgarity and even fleeting foul language. Doing my job in today's world is hard enough without having to struggle with what's on TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

The language that is "bleeped out", that one is still able to see and 1/2 hear the werdds is out of control. We have very small children using the "F" word as if it were the word "HI". Is this what we want for our future society? I think we need stricker laws, not more lenient.

Comment: Okay, here's how it goes for me...I have no desire for my children to see a naked person on television or for them to hear expletives while surfing for a program to watch. Personally, I don't care to see anybody on television in the buff or listen to profanity.
PLEASE DO NOT RELAX THE BROADCAST STANDARDS FOR DECENCY.
KEEP THE LAWS IN PLACE OR MAKE THEM MORE STRINGENT.

As a former holder of a RT 1st FCC license, I am appalled at the current language allowed in the broadcast field and am not in favor of further expanding the vulgarity.

I am responding to the FCC's request for comments on possible outrageous changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. They are allready too lenient! The FCC should not weaken them to allow ANY instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV and a weakening of all moral standards in our country.

Comment: I am responding to the FCC’s request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I find lowering the standards totally unacceptable, it is bad enough already. How many of you have had to explain what "erectile dysfunction" is to a child? That is a mild example. The violence against women on TV has reached an all time high and needs to stop.

Comment: In short; I oppose of relaxing the FCC regulations. Started back when I learned right from wrong, which isn't exactly a specific line anymore. Reality has evolved into this skewed labarynth in which our children grow up thinking things are ok, when years ago they were clearly not. Television in part is to blame for simply compounding the issue. People, humanity, needs to take a step back and look at who we were, who we are, and who we are becoming. It's not good evolution and we should all take steps to improve ourselves. I'm not super religious, but consider this.. If there really is a heaven, do you think you're getting in"}

You think we have problems NOW with kids and volience so in schools with predators at school age. To weaken this current law would only encourage even more volience for our kids. It's important that the networks to do their very best to prevent this type profanity and nudity; it's bad enough. If anything the networks need to lead by example to reduce or eliminate this type of behavior no manner who's pushing the envelope for more.
I'll be contacting my Senaors and Representatives concerning this manner as well to prevent confirmation of FCC chairperson as well.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Talk to teachers in the elementary and middle schools. They will attest to the increase in vulgarity and problems with discipline in the age of children they teach today as compared to 5 or 10 years ago.

Furthermore, I would like for the standards to be more restrictive so that my family can start watching TV again without having to be exposed to poor taste media.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV, and it's bad enough already.

I find that each year I am watching less because of the decline in decency. Every time a standard is lower the media is looking for the next thing they want to change. Enough all ready.

I think it is really time to tighten decency standards not weaken them.
Children watch TV most anytime during the day all the way until about 11 pm. There is no need to broadcast indecency shows during these times when families are watching.

Aren't the standards low enough already" Many times when I have watched a show with my teen daughter we are both embarrassed by what we see. There's an old saying, "If it ain't broke don't mess with it" The question is, "who is pushing for this change" NOT parents with children...

We are losing far too many of the values, on which we as a Christian nation was founded. Please think of your children and your grandchildren and vote NO for the changes!!!
Thank you.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcasting policies (due on May 20th). I want to state my opinion in being fully opposed to ANY changes to the broadcast decency standards that have been enacted by the Congress. I do not feel the FCC should weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching that should not be exposed to this type material. Easing the standards only makes it easier for vulgarity and sexuality on broadcasting TV to be allowed.

I am responding to the FCC's request for comments on possible changes to its broadcasting policies (due on May 20th). I want to state my opinion in being fully opposed to ANY changes to the broadcast decency standards that have been enacted by the Congress. I do not feel the FCC should weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching that should not be exposed to this type material. Easing the standards only makes it easier for vulgarity and sexuality on broadcasting TV to be allowed.
I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. Instead the FCC should enforce the policy in a firm and timely manner. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV, and hasten our country's slide into the liberal, immoral sewer.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

There MUST be some decency in this world! The relaxed standards that people are allowing continuously degrades our society! The more nudity, profanity, and violence people are exposed to (and at earlier and earlier ages) the more commonplace it becomes... and our nation is spiraling downwards all the way to the gates of Hell. When people are exposed to positive influences they grow more positive. When people are exposed to more negative influences, they grow more negative. It is simple! DO NOT lower standards and allow corruption in young lives. It is nurturing more people to be like Ariel Castro and be immune to morals. STOP the insanity. Cut down on the indecency instead of allowing more of it!

It's embarrassing that we have become a degenerate nation!

I don't find much I like on t.v. now. Add indecency and I can throw my t.v. out.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Please do not change the current broadcast decency standards. Enforcement should not be reduced only to "egregious" cases. Fleeting nudity and profanity is completely unwelcome in my home, particularly when my children may be watching. The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

If the FCC lowers its standards you can fully expect to see an alarming increase in vulgarity, foul language, and nudity. PLEASE, do not let them lower standards that are already too low.

thank you.

I oppose ANY changes to the broadcast decency standards that have been enacted by the Congress, in fact, I think they should be made more stringent and with stiffer penalties. The FCC should NOT weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Please, please, do not allow our country to decline in morality even more by allowing more profanity and nudity on public television.

Comment: I live in South GA and I am responding to the latest info I received and read about the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

This note should serve notice that I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress - in fact, they ought to be tightened as too much is seen and heard on TV today. It is hard to raise a family in our culture today... what kind of message are we sending the world and our youth"

The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I also object to the overt showing of blooding scenes and so much detail on them. Also, why are we telling young people in the media how to kill or torture people. ENFORCE THE LAWS!!!

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.
Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

It is a shame that we cannot watch TV during normal viewing hours without being insulted by the language and nudity that is considered common today. Please, please do not lower the standards any further. Sincerely, Virginia Leidheiser

As responsible parents, my husband and I have already stopped the watching of many television programs which we find unacceptable, this will just cause us to pull the plug on television entirely. We are not the only families planning on removing television from our homes if this nonsense continues.

Comment: Relaxing standards is equivalent to "dumbing down" traditional moral values which have served this nation well for decades.

Please do not "dumb down" standards in order to be "hip" or "relevant".

I say No to profanity, nudity, and vulgarity - no matter how "fleeting" the reference.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. I believe that the FCC should not allow this type of broadcast at any hour of the evening. I have stopped watching several different shows because of the current content at the present time and I know many would say that is what should happen with any show that we have the ability to change the channel but my objection is that I fund these shows by having to pay fees to broadcasters. If it were possible to just pay for certain shows rather then having to be subject to such trash it would be better for all but that is not how the cable companies and networks operate.

As a career teacher, I know that it is very confusing to children to see one thing on TV and then find that it is inappropriate to go around dressed that way or speaking that way especially at school. Please do not relax the standards of decency on televisions.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Congress acted to protect my children as well as their own. Let's all stand behind them in protecting all children across this great country.

Thank you, and may God bless you and the work of your hands.

The idea of lowering the standards IS NOT in the best interest of our country or viewers. It is only in the perceived best interest of those businesses involved in the production of these shows.

I already think that the relaxing of language rules that now allow us to hear "bitch", "bastard", "crap" and other obscenities has overstepped the boundaries of moral decency. I am all for free speech, but allowing vulgarities to be broadcast at will only excites prurient interests and does not actually make an expression or statement.

Please do not allow our society to decay farther by relaxing the rules. In fact, roll them back to 1970s standards, PLEASE!

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

There are already too many real sexual assaults, and placing more suggestive and direct references in front of children will only worsen the ideas kids will eventually act upon.

Weakening these standards leads to a moral debasement of our society and further sexual exploitation among our youth. I urge you to uphold the decency policies.

Although the FCC may be receiving pressure from the networks, the young generation is relying on it to provide leadership that is based on character and not increasing network profits through shock-value programming.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Our nation is in bad enough shape already.

We still want to watch TV & movies with our family, nudity & foul language is not what we're looking for.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I am a father of two daughters, and increasingly, we are unable to view network television due to adult content. I oppose any weakening by the FCC of the broadcast decency standards that have been enacted by Congress. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards would be a disservice to American families & children, and has no redeeming value to anyone.

Morals in this country and all ready on prime time television are being eroded. Enforce existing laws, do not weaken them.

Instead of weakening the policy let's timely enforce the law that is in place.

In response to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013, I want to express my opposition to any changes to the broadcast decency standards that have been enacted by the Congress. Even fleeting instances of profanity or nudity can have the effect of desensitizing those who are exposed to them, including adults as well as children. Therefore, the FCC should not weaken the standards to permit this in family-time programing. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. I agree that relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV preventing families and children from enjoying wholesome TV programing.

The challenge to safeguard our children and our own ears and eyes from indecent language and nudity continues to grow. Our family will most certainly resort to alternate forms of TV entertainment if decency standards continue to degrade.

Our society is already on a downward spiral. Please do not hasten the day when we go over the cliff of decency by allowing a relaxing of standards which are already too low.

Our society is already on a downward spiral. Please do not hasten the day when we go over the cliff of decency by allowing a relaxing of standards which are already too low.
Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

The standards as they exist are not being effective enough in protecting the public from vulgarity and profanity. Weakening them invites even less reason to view public television at all.

It would be so encouraging if the FCC's incoming director took a stand for maintaining and enforcing the current standards.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

This kind of filth should not even be on TV at all, at any time of the day or night. Please do not relax standards that are already too low!

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress, unless the changes were to in fact provide a cleaner and more wholesome broadcasting experience.

The FCC should NOT weaken the standards to allow even "fleeting" instances of profanity or nudity. Nudity is completely inappropriate for children regardless its duration, and I do not want my children hearing profanity, even in a "fleeting" instance. The harm is done whether the word(s) are spoken even once.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Approving this behavior and condoning the accompanying lascivious attitude is ludicrous and unacceptable. As a parent and grandparent, I have had ENOUGH nudity and profanity to last a lifetime.

Concerning the FCC's request for comments on possible changes to its broadcast decency policies, due on May 20, 2013, I oppose any relaxing of broadcast decency standards that have been enacted by the Congress. Whatever interests the broadcast industry may have, they certainly do not override policies set forth by (Congressional) representatives of the American public. The FCC cannot be beholden to special interests.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Many shows are already using incredibly vulgar and highly sexual themes-like 2 Broke Girls.
Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity - it has been degraded more than it should be already. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards even more, will only lead to greater vulgarity and sexuality on broadcast TV and further degeneration of our society.

Comment: I react with amazement when I hear such imbecilic requests coming out of an agency of a government that was founded on such holy principles and ideals. I have to wonder if anyone on this commision has any children, grandchildren or even has friends with children. Some how I get a picture of their families sitting around in evening watching family porn.

Do any of you have an scintilla of morality or a shred descency"

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress unless it is to strengthen them even further.

The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. There are already a limited number of programs that I, as an adult, will watch as they already have either objectionable content, just plain junk that has no redeeming value to an intelligent person, or their innuendos are not what I want nor need. Children are already bombarded from all sides. Let us keep one thing that is decent for them. I see Family Man, I believe it's called, on at a time when kids are still up and it's disgusting. I believe, if anything, that you need to even become stricter than now.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I frankly don't see how the language can get much more vulgar and the clothing is as frequently suggestive as outright nudity. It is sad to realize that the "entertainment" available to the young - or old- has to be permeated with such objectionable material. Yes, I am old, and I can remember really funny, entertaining and clean TV shows. Something the whole family could watch together without having the young cover their eyes and ears. If we can't go back to that kind of decency at least don't make it worse.

What is on now is already so much beyond the standard of just a few years ago. Decent moral people who want to watch good tv shows are hard pressed to find something that isn't offensive in content or words. Please do not let this go any further. Our children need to see and hear good upstanding language and content when they are watching tv. And to allow any more nudity would be totally wrong. When will our society learn the correlation between lack of modesty and violence.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.
We are responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. We strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. Enforcement now is not timely; therefore any weakening of these standards would cause even more relaxing than now. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. And we do not need this at all. There are enough forces invading the sanctity of the family...let us not add more to an already burdened family. Thank you.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes that would lower the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Please do not contribute to the schizophrenic mindset in America regarding purity in speech and behavior. Unprincipled sexuality is promoted and encouraged by the entertainment industry and even by some school teachings, and then people are shocked and indignant toward sexual crimes, without seeming to understand the connection. We've seen that people will often live up or down to what you expect of them. As a culture, let's admit that sexuality is a gift and a force that needs to be self-controlled and protected. Let's set a higher standard for ourselves and our children.

Comment: Please do NOT make any changes to the broadcast decency policies. It is disturbing to see how willing broadcasters are to allow immoral, vulgar and disrespectful behavior on TV programming. Not only does it send a horrible message to our children, but it undermines the teachings of family values and causes our children to consider this behavior as normal. It is time for responsible adults to stand firm against this intrusion into our lives. Please DO NOT allow further deterioration of television programming. What a sad day this will be if relaxation of these rules is allowed.

Once you allow a little NUDITY and a little PROFANITY, where does it stop? It's like being a little bit pregnant. A sheer cliff next to a mountain path doesn't permit you to step even a small amount in the wrong direction without going over the abyss.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress unless the changes strengthen the standards both in terms of the standards themselves and the enforcing of them. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Most of the shocking ones are for other TV shows that I prefer not to watch or for movies that I am also unlikely to see.

I would think with all the violence in our nation that common sense would prevail somehow and this filth that leads to violence kept off the air waves. You do not have to be a rocket scientist to see the connection.

I hope to uphold a decency that I could watch television with my grandchildren and not have to continually watch dvd. which is what a lot of parents and grand parents will do.

Please take the high road and do not allow more vulgar talk and sight on television. this could also make the tv producers produce better programs. men cannot keep getting visual stimulus from television. it is wrong.

thank you

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

The FCC should not weaken the already too lax standards and to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I am also surprised that FCC members are unaware of moral down-slide in the US society caused by so called "relaxed" and irresponsible life style already strongly advocated and promoted by many TV channels, which are open to all, including young undeveloped minds of children and adolescents. Don't you see that farther "enhancement" of obscenity, nudity and vulgarity will destroy our nation"". You must be blind and brain-washed yourselves if you consider relaxation of moral standards. It is a shameful notion.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. We are already living in a time when our children have been exposed to way too much in their young lives resulting in many of them making poor decisions in their behavior. I beg you to please prevent airing anything worse than what is already being shown. We must protect our children in every way possible. I personally do not watch much tv because there is already too much vulgarity on it. I can only watch a few stations. Please have respect for those of us who do not have any desire to hear or see vulgarity and nudity.
Thank you so very much for hearing my desires that would protect my precious grandchildren and all of the precious children in our country.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Thank you for standing for righteousness!
Warmest regards,

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Thank you for standing for righteousness!
Warmest regards,

Of course, nudity in itself is not disgraceful or even bad, I'm concerned about the slippery slope we're on and seem to be determined to stay on. Once the door is opened, the limits begin to be tested and moral boundaries are crossed. Why must we use strong and vulgar language and questionable sexual activities for entertainment?"

There's a reason for ratings that are spiraling out of control. Parents with morals don't want to watch this kind of viewing, so it is fed to our younger corps. of kids and it happens to be what they view real-life to be.

I have appreciated knowing I could watch tv in my own home without being subjected to language or images that are offensive. I would like to know this will continue to be the case for me, my children and grandchildren and progeny for generations to come.

Thank you for listening.
Sincerely,

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. There is already too much 'trash scenes' on the tv at hours that children are still awake. Furthermore why should this garbage be allowed at all. The old saying of 'GIGO' still stands; garbage in, garbage out. Why is it necessary to 'pollute peoples minds' with it.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Thank you

Comment: This is another Obamanation sought by an administration that has no respect for religious values of modesty and decency in dress and language. Families seeking to teach their children and young people to dress properly and express themselves intelligently are already overwhelmed with sexualized behavior and profane speech. We do not need the government undermining the important work of parents, teachers and pastors to inculcate and maintain basic standards of respect, courtesy and propriety by authorizing vulgar and salacious programming.

It is government action such as this proposal that only speeds up that process by allowing this egregious behavior in the family time of the television viewing audiences.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I believe that the immorality and indecency already shown on TV is harming the standards of our country. Please don't make it any worse.

I think it is outrageous that these standards could be relaxed.

Children pick up expressions on the TV all the time. Are we to raise generations of foul-mouthed people because broadcasters think they can get a little more revenue at the expense of decency" TV is bad enough as it is.

I sincerely hope that you will deny this change. The bureaucrat who thought this abomination up needs to be fired.

Allowing a little NUDITY and a little PROFANITY on broadcast channels over the public airways is ultimately giving license to X-Rated materials. Making a small misstep on a narrow mountain path immediately adjacent to the cliff will send you into the abyss. Please stick with the current standards.

Thanks for considering this!

I wanted to add that allowing the word "bitch" to be said on TV during the morning hours on channels such as VH1 are why we no longer watch that channel. It's ridiculous that our children are subject to vulgarity on television these days.

Sincerely, Pam Tetreault

There is already too much adult content in what is being broadcast now. To further expand this would be very detrimental to our children and adolescents. Please do not allow any further erosion of decency in broadcasts.

I think it's reprehensible for prime time TV to continue with the "street language" that is coming more and more on TV and radio. Please keep the high standards of the past. The kids growing up now will think it's OK to use the bad language that is being expressed on popular shows. And that will just lead to a downward spiral of the English language and lead to "the gutter talk".

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: We are responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. We oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. As parents of four and grandparents of 10 we object to any changes that would permit even more vulgarity on TV

Concerning the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013, I strongly oppose any changes to the broadcast decency standards that have been enacted by Congress that would weaken the standards now in place. These standards do not allow profanity or nudity and they should not be weakened to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I cannot believe this is even being discussed. OPEN your eyes. I am a mother of a 12 year old girl. It is difficult to monitor now. Cable is sickening and we are close to canceling our service.

Why would you even want to lower the standards we have in our country"
What you want to do makes no sense and for what purpose"

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I heartily oppose any changes to the broadcast decency standards that have been enacted by the Congress!!! The FCC should not weaken them to allow even fleeting instances of profanity or nudity. I do not want my son and later my grandchildren to be subjected to foul language and nudity like that and many, MANY more parents and grandparents feel the same way I do there is some decent people still left in this world! Your commission should be some of them and at the very LEAST respect those of us who are. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching! Relaxing these standards is reprehensible and it will only lead to greater vulgarity and sexuality on broadcast TV which is something that should not happen it is more than bad enough already!!!

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I heartily oppose any changes to the broadcast decency standards that have been enacted by the Congress!!! The FCC should not weaken them to allow even fleeting instances of profanity or nudity. I do not want my son and later my grandchildren to be subjected to foul language and nudity like that and many, MANY more parents and grandparents feel the same way I do there is some decent people still left in this world! Your commission should be some of them and at the very LEAST respect those of us who are. Don't we bombard our children with enough "Why do we overlook their needs for the supposed rights of a few" If people wish to be entertained by more and more sexual content they can rent a couple of R movies - or view porn on the internet. Remember, the child you corrupt today will very likely become society's sexual predator tomorrow who may eventually cause harm to you and your family. And no, one does not need double blind control studies to research that one - just watch the television news.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.
Comment: I am completely against the FCC's possible changes to the broadcast decency policies. I support the current broadcast decency standards that have been enacted by the Congress. I strongly oppose allowing even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will subject family viewing to greater vulgarity and sexuality on broadcast TV. Again, I strongly object to any changes.

It is the FCC's responsibility to help to build up our society, not to assist in its degradation.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to lower the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow any fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. I would prefer that the FCC attempt to lead the nation's public to higher moral standards, not lower them.

It is also the violent crimes programs that give too many ideas how to do such things to young minds. We need crime in all areas reduced, not enhanced.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress, unless the changes are toward stricter guidelines to protect children and families who view broadcasts during Family Hour. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV, and that is not Family-friendly entertainment.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not relax them, particularly during hours when children are likely to be watching. Language is bad enough as is. I work hard to allow my children their innocence without worrying about images of nudity desensitizing them (and us) as well as vulgarity of the lowest sort (occasional or not). At some point these standards will continue to relax to include sexual nudity and frequent "vulgarity" and then we'll be wondering how we got so low. It starts here.

Even if these changes are allowed during 'adult hours', there are adults that do not want to see or hear vulgarity.

I am writing in response to FCC's request for comments regarding proposed changes to its broadcast decency policies. The comments are due on May 20, 2013. I strongly oppose the idea that FCC can relax or not carry out the will of Congress. Congress has passed the laws and FCC should enforce them. There is no need for FCC to weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to more profane vulgarity and sexuality on broadcast TV.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. It is already 'extremely difficult' for a person of faith to watch the filth that qualifies as acceptable under the current standards.

Children spend a great deal of time before televisions. The programming that is allowed desensitizes them to things that they see (witness) on television. Is it any wonder that massacres like Sandy Hook and the aborting of over a million children per year occur when sex and violence are glorified on television

What part does the FCC play in this" A very large part because what is allowed, you have allowed. If you allow more, you will further desensitize children and promote greater violence, profanity and discord in society.

Comment: I am responding to the FCC’s request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

For the sake of our children and generations to come, please do not allow this change to occur. Our children, teenagers and young adults are already suffering enough. They have been changed by the family divorce, drugs, higher crimes, sexual abuse, murders and more. Allowing decrease standards on our tv will again bombard these kids with more violence, nudity that will lead to sexual confusion and behaviors that are not healthy for the mind, physical welfare and spiritual well being.

Thank you for listening.

In response to the FCC's request for public comment on decency standards in broadcasting, I am writing to say I oppose changes that would weaken standards further. There is already too much profanity and nudity, and it would increase if standards were changed. I know my view is shared by a great many friends.

Children are exposed to enough sexuality and vulgarity now so they don't need any more to pervert their minds. There must be some higher standards set so children can have a something better to compare the bad things in life that they see every day.

I am already disgusted by the things that are on the television, as it is now. There is nothing that I can sit down and enjoy with my 5 year old daughter. Instead of degrading the networks and the whole country, how about do something positive.....there's something that might "shock" the nation.....some good, wholesome family shows like when I was growing up. It's so sad that we have let the devil get into everything and now he wants more, so you all want to give it to him. I pray every day for our nation and for people like you, who want to add to the downfall of our nation. God bless and I pray you will think about what you are deciding.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

There is enough indecency on television. Please don't add any more. None of it is beneficial to anyone, of any age. Enough-

I also believe that the current standards are too lax and that the current level of nudity, sexual innuendo, and profanity are another reason for the continued increase in the coarseness of our current society. America needs to clean up its act!

Comment: I understand you (the FCC) are requesting comments on possible changes to its broadcast decency policies. I strongly OPPOSE any changes which weaken the broadcast decency standards enacted by the Congress. You have the authority and the duty to restrain nudity and profanity based on the Supreme Court's recognition of the FCC's authority to prohibit indecency at times when children could be watching.
Please do NOT weaken your standards to allow even brief profanity or nudity. Even brief episodes are the slippery slope which will lead to even more and more vulgarity and sexuality on broadcast TV. There is too much already!!

I, as a woman have all the same equipment- maybe more or less, but the same and I do not need to have it flaunted on TV. My children and grandchildren do not need to see this. As it is, there is not much to watch on TV. We went to basic cable because of all the garbage on TV now. This would create more child pretators and porn and more rapes and even divorce. To many men think their wives should look like the women on TV. There is so much violence on TV now and now you want to add porn. What is this country coming too. Lets get back to basics and have some decent TV- no nudity, foul language, not so much violence. Shock and sex may sell, but what does it promote- nothing and it is changing the morals of our once great nation. NO TO NUDITY- BAD LANGUAGE AND VIOLENCE!!!!!!!!!!!!!!!!!
Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

It's pathetic what's on public viewing now... we don't need anymore.

Comment: I strongly OPPOSE changes to existing broadcast decency standards, especially during times when children could be watching. Considering the many challenges this country now faces, why would we want to lower the bar and expose children to more sex and profanity on broadcast TV.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. It is your RESPONSIBILITY to hold the line on this kind of indecency.

Thank you,

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should be enforcing our present policy and not weakening them to allow even fleeting instances of profanity or nudity.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. The purpose is to protect against the harmful influence of profanity and nudity.

Relaxing these standards demonstrates the lack of discernment and reckless, irresponsible direction of weak leadership.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

I oppose any changes to the broadcast decency standards that have been enacted by the Congress.

The FCC should not weaken them to allow even fleeting instances of profanity or nudity.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV, which, in turn, will lead to a more vulgarity in public, where children are more likely to hear it.

Thank you.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I strongly oppose any relaxing of the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. I already watch very little TV because of the filth there. This would make TV completely unwatchable in my home.

Corruption in the airwaves will certainly lead to corruption in our society. Protect the next generations from indecent exposure in words and actions.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

I am totally against relaxing the established rules and they are not being inforced now ( like the wardrobe malfunction at the superbowl ). If people want nudity or vulgarity they have the internet. I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

What good will this do? We already have little children swearing like sailors with no regard to others sensibilities. Just leave things alone.

Please rule against lowering standards for decency.

I understand the FCC is requesting comments on possible changes to its broadcast decency policies. The FCC should not lower the bar. Weakening standards to allow "fleeting" instances of profanity or nudity will only lead to greater vulgarity and sexuality on broadcast TV.

It is already so bad, I wouldn't let my child watch primetime tv if I still had small ones. Please don't relax the decency standards!

Comment: I am writing in response to the FCC's idea of possible changes to its broadcast decency policies that are due on May 20, 2013. I strongly oppose any changes to the broadcast decency standards that have been enacted by our Congress. The FCC should not weaken their broadcast standards or policies to allow fleeting instances of profanity or nudity when children could be watching during the recongized family hour. The Supreme Court has already show that it recognizes the FCC's authority to prohibit indecency during hours when children may be watching. If the current policies towards decency were relaxed to include vulgarity and nudity it is opening the flood gate to even greater vulgarity and sexuality on broadcast TV. If people want to see this, they can simply turn either to the internet or to cable/satellite television where the use of profanity and nudity, even male is becoming more prevalent.

As a concerned United States citizen, I am asking that the FCC uphold their current practices and not relax the family hour standards.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

It's bad enough we have to put up with garbage on the cable channels, but the PUBLIC airways are not pubic airways. Keep them clean enough that you would have no qualms about having YOUR grandkids exposed to the contents.

Also, as we have seen in our society in the past 50 years as standards have been lowered on TV, the quality of virtue in our society has lowered. We must, as a professing Bible following nation, continue to maintain those standards. Blessings on our country will follow.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. I strongly exhort the FCC to reconsider its important role in promoting the "common good," and not simply what might appeal to the prurient interests of certain immoral, indeed "amoral," individuals and special interests groups (lobbyists). It seems that America is in a moral malaise; that it is caving in more and more to a dangerous dictatorship of moral relativism that ominously portends this nation's decline and fall. Let us not forgot the lessons of history: namely, that such a societal turn toward condoning sexual promiscuity, not to mention sexual deviance, played an integral role in the decline and fall of some of the world's greatest civilizations and cultures like ancient Greece and Rome. In other words, the FCC should heed two sage Latin admonitions: "corruptio optimi pessima," "the corruption of the best is the worst," and, furthermore, "caveat emptor," "buyer beware!"

Comment: I believe nudity is wonderful, given time, place, right person.
Please protect childhood especially from nudity.
FCC, please understand my children need you to keep them little.
FCC, why don't we have people running around nude in the streets"
FCC, I ask my children to turn their eyes from the nudity of others.
FCC, forgive me, but if one of you were accidentally nude in the street, I would ask my children to turn their eyes and
bring you clothing.
This would be to protect your dignity in their eyes and the eyes of those around them. I really care about that.
If there is more nudity, it could promote an insensitivity to that in my children, in me, and in culture. It's a dignity
thing for us.
Of course I believe that nudity is wonderful, but there is a time and a place, and a person.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.
I will turn off the tv or radio if i hear profanity. I dumped the cursing 53 mode, I enjoy the english lanuage which enables us to say something good or not at all. I wont buy products from companies that sponser trashie programs.

Comment: Regarding the FCCs request for comments about possible changes to policies about broadcast decency, due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. Do not weaken these laws by allowing even fleeting instances of profanity or nudity. The Supreme Court recognizes the FCC authority to prohibit indecency at the times when children may be watching. Only greater vulgarity and sexuality will be the result of any relaxation of these standards.

I am offended by much of what is on TV today and watch very little because of this. I believe it is insane that you allow our airwaves to be polluted with the present programming and now you are thinking of making it even worse. Please come to your senses.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

It is already challenging to watch even sporting events without commercials being indecent for our children to watch. Please do not allow the FCC to lower the standards even further.

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. What more evidence do we need that our culture is struggling against an avalanche of horrors perpetrated against women and children in our society. Daily we hear of atrocities, and yet now we are supposedly contemplating relaxing standards. Are you serious

Comment: This email comes in response to the FCC’s request for comments on possible changes to its broadcast decency policies. I am in opposition to any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even brief instances of profanity or nudity. I understand the Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Surely, relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

We are ashamed of the FCC members who do not represent the values of the silent majority.

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. There is enough of vulgarity and sexuality on TV as it is. Let's have programing that demonstrates good moral values for people of all ages.

I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. There is enough of vulgarity and sexuality on TV as it is. I would also add that we would not have a problem canceling our television service if decency standards are lowered. We pay for TV and only watch 2 or 3 programs. We don't have children in the home, we just want more decent quality moral programs.

I would like to comment on the FCC's possible changes to its broadcast decency policies. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. Broadcast television is already pushing the limits of decency with current programming, and any relaxing of the standards is certain to lead to unacceptable levels of vulgarity and sexual content, even during hours when children may be watching. The Supreme Court has recognized the FCC's authority to prohibit indecency.

I strongly oppose this being allowed during family hour. We already have too much vulgarity and nudity on TV, which by the way, the public owns.

Comment: Please do not allow the FCC to relax its current profanity restrictions. Already the things that are on TV promote a wildly licentious life-style that can only contribute to ultimate ruin and despair. The results of promiscuity are well-known and a drain to our economy, society, and culture. If you further enable it then you will ultimately be responsible for all of the pain that comes from your decision. What if it was your 16 year old daughter that was pregnant because she thought sex was just some fun game" The shows always make it look like a fun time (it is) but NEVER show the bad side! Please don't do this. You will regret it later.
God bless,
-Joshua Tibbetts

Please do not allow the FCC to relax its current profanity restrictions. Already the things that are on TV promote a wildly licentious life-style that can only contribute to ultimate ruin and despair. The results of promiscuity are well-known and a drain to our economy, society, and culture. If you further enable it then you will ultimately be responsible for all of the pain that comes from your decision. What if it was your 16 year old daughter that was pregnant because she thought sex was just some fun game" The shows always make it look like a fun time (it is) but NEVER show the bad side! Please don't do this. You will regret it later.
God bless,
-Joshua Tibbetts

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Please no more it is so vile and explicit that if it wasn't on TV people would be called peeping toms and be arrested. Please reverse the trend, tighten up on vulgarity, nudity and sexuality. I don't want to watch people have sex in my living room. Nor is it representative of anyone that i know or want to know. Please force start enforcing the rules and laws. Thank you,

Please do not seek to further destroy what little decency existing in this country by displaying pornographic scenes and profanity. Are you trying to completely destroy all that for which America used to stand? People like you have so degraded the morality in this country; morality needed to keep a country honest and noble. How pathetic you are to want to diminish what is good and wholesome; to lower our moral standards to gutter levels.

I am a mother of 3 children and we do not use profanity in our house nor do I expect to hear it on any of the shows my kids watch. Please do not allow this to happen. Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: Broadcast indecency is bad enough as it is, so don't lower the standards anymore than what it is now. In fact, it would be better to raise the standards, not lower them.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

I oppose any lowering of the broadcast decency standards enacted by Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children are likely to be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. I never turn my TV on, because there are far too many vulgar words heard and too much skin shown right now. The USA of today doesn't bear the faintest resemblance to that wonderful country I grew up in and revered for its decency, kindness and patriotism. Our "shining city on the hill" is no more.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. I personally am offended by even instances of profanity and nudity, and especially when it occurs in commercials during decent family oriented programing and sports.

Comment: I am responding to the FCC’s request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I strongly oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC’s authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV then there already is. The downhill slide has gone far enough towards indecency as it is. Please keep the enacted decency standards in place. It is already possible to be blindsided with profanity and sexuality in television programs that in an earlier season were relatively family friendly. The downhill slide must not be allowed to continue if we are to protect families from indecency.

It is hard to find a program that is suitable for family viewing, so I trust that you will not allow the FCC to lower the broadcast decency standards to an even lower level.

This is a proposed further step down from the high family standards in place when television was introduced. If a change must be made, it needs to be a step toward more modesty, more decency, for genuine family broadcasting. If the FCC's request is granted, and the downward trend continues, eventually full nudity and egregious language will be the sad norm.

There is enough of indecency on cable broadcasts and to extend any leniency in this regard to broadcast TV seems incomprehensible.

I simply don't understand this obsession with sex. It reminds me of 12 year olds giggling at dirty ideas and jokes. You would think adults would want to shield children from adult issues, not corrupt. I refuse to watch movies or TV that is sexually explicit. I will not even watch if it is marginal. I do not need this garbage and it is helping create more sex addition which leads to abuse, rape, child molestation, etc. Enough is enough. STOP IT.

Comment: I want to weigh in to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I OPPOSE ANY changes that weaken or relax broadcast decency standards that have been enacted by the Congress. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Children and young people are already bombarded with sexualizing everything and subjected too much foul language. Society is the loser for what's been done against children and parents who try to protect against these assaults on decency. Tv writers and producers should instead challenge their creativity to provide better quality programming that doesn't "require" profanity and nudity to be noticed.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

There is already a huge amount of indecent things being shown on TV which I feel is completely wrong for us as a society. This just further helps to disregard any type of moral value we try to teach our families.

The FCC has always kept our society from being overly crude and vulgar. It seems some would like to loosen the standards for nudity and profanity. I ask that you please keep the current standards in place.

Our nation is becoming too ungodly as it is. We don't need any further deteriation by the broadcasting industry.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013.

As a physician and a father of six children I am extremely disturbed by the Commission's desire to lower the decency standards. The current standards in place already make it difficult to watch television with my children.

Our present moral confusion would only be more confused by extending more negative words and pictures into our culture. This kind of turpitude is counter productive to our society. It is counter productive at any time of the day or night.

The standards have already been "lowered" due to the FCC's failure to enforce violations of the existing standards! Saying that the FCC would enforce only "egregious violations" is not only a subjective standard, but will allow an ever-increasing violating of decency, because the networks and individual stations will keep pushing the envelope to be the leader!

IN MY OPINION, THE STANDARDS ARE ALREADY TOO LOW!!! I NEVER THOUGHT THE DAY WOULD COME WHEN AN AGENCY OF OUR GOVERNMENT WOULD ENCOURAGE EXPOSING MY CHILDREN TO VULGARITY AND IMMORALITY!

KEEP THE STANDARDS AS THEY ARE ??? AND ENFORCE THEM!

If you're wanting to change anything in the broadcast industry make them clean up their act. I am an adult and am embarrassed by what I see on TV!! All cable as well as other channels are pushing deviant behavior, foul language and acts that are supposed to be intimate not spread all over the airways. That's where you could do some good if you are sincerely wanting to make 'GOOD' changes.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

We need to broadcast respect, high morals, honesty, values etc., not more trash talk, rage, violence, sex etc. Please keep the restrictions as they are, or even tighten them up. Thank you, a concerned Florida Mom

Comment: PLEASE do not change your broadcast decency policy on May 20, 2013. Even fleeting instances of profanity or nudity are unacceptable during hours when children may be watching. You know this will open the door to greater vulgarity and sexuality on broadcast TV. Thank you for helping to protect our children, Diana Senechal

I have complained about PBS in the past to the FCC who has not taken action. They are already way to laxed.

It has gotten to the point that there is very little programing that is decent enough for me a 73 year old widow to watch. I ask that you think of the effect this will have on children. Please do not allow any changes to the decency standards.

In my lifetime I have observed the inch-by-inch effect of small changes such as those proposed. Things tend to keep going in the direction they are going. While the proposed changes seem harmless, historically, such changes are just the first of many steps that will eventually take us where we don't want to be. The time to stop undesirable outcomes is before we begin them.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Who is behind this proposal? Are the networks so desperate to compete with the Playboy channel that they are willing to make our children immune to morality? Those political appointees and bureaucrats at the FCC need be courageous and consider the public and not the industry. If this should be the new normal, we as a nation will be further left to our own demise, because the LORD will remove his protective, loving hand.

We have already been shocked by some of the content of commercials during what we considered a family show and family hour t.v. time. We do not watch that show anymore.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

***I agree with the statement above, but it is too nice.

I would actually like to use vulgar language to articulate the extreme frustration I have that this is even being discussed.

As if TV isn't offensive and crude enough"

The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: To the FCC and Congress,

I believe your job is to protect and serve. You're the law makers and enforcers. About 5 years ago, I got rid of my TV and changed from 32 years as a democrat to independent not GOP. I was blind oh so long, but now I see.

There were, and are, plenty of great shows that kept my TV on 5 hours a day because of their high quality. Yet, due to offensive language intended to shock, and the also shocking moral decline of many types of shows, the TV is gone.

Having taught over 1000 children, I don't forget them when I happen to be at a friends house watching TV and they say, "I really don't have a choice". Nor do I forget them when I influence others to vote.

Either you do forget them, or your heart is just not into their needs. Maybe both. For them, I recommend highly restrictive Internet on demand. And there you fail as well.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I totally oppose any changes that lessen broadcast decency standards as have been enacted by the Congress.

The FCC should not weaken any standards to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. Please stand strong against any lessening of the broadcast decency standards.

Strongly sincere,

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not soften them to allow any nudity or indecency. It is a well-know fact, that the Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxation of these standards in any way, will only lead to worsening indecencies on TV.

Due to the decline in morality in this country, somebody needs to take responsibility in the media and help protect our children from this not make it easier. We need more decency on tv and in movies for our children sake and the sake of our nation. Please do not make any changes that would make it easier for our children to see this on television.

The language, violence, and sex is already way out of control and much of the programs should not be seen by children under 16 years of age!!!!

Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV. The continuing decay of morality and its effects on this once great country should be clearly visible to anyone with some sense of reasoning. If anything should be changed, it should be more stringent scrutiny of instances of violation and more severe fines for such instances. It seems every government entity is out to destroy the very moral fibers which built this country and have thus far held it together, without realizing that doing so will eventually destroy this country and themselves with it. Be enlightened, and study the history of all past great Democracies and empires, and make note as to causes which brought them down. One of the foremost causes was moral degradation. Who am I to repeat the age old line "Those who choose to ignore history are bound to repeat it"
I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. Have you no morals? Immorality plays into the hands of evil men and women. Indecency robs children and young adults of their feelings of self-worth. Until one of your loved ones succumbs to this evil, you people will continue to enslave innocent victims. I guarantee you people will not get away with your immorality, you are headed on the fast track to an eternity of a black death.

Comment: I am responding to the FCC's request for comments on possible changes to its broadcast decency policies that are due on May 20, 2013. I oppose any changes to the broadcast decency standards that have been enacted by the Congress. The FCC should not weaken them to allow even fleeting instances of profanity or nudity. The Supreme Court has recognized the FCC's authority to prohibit indecency during hours when children may be watching. Relaxing these standards will only lead to greater vulgarity and sexuality on broadcast TV.

Comment: I think it would be a mistake to relax oversight of "prime time" television programming on broadcast tv. People perhaps have a right to have a "refuge" from the constant barrage of what is freely-available on pay tv cable networks such as HBO, etc. And I feel that children have a right to be protected from these sorts of things. It seems clear that some studies have shown that early exposure to these sorts of things can have a negative effect; or at least it seems to be common-sense that they do. There's enough corruption and decline in "standards" already. For people who want total freedom of speech, there are whole ARRAYS of a wide selection of programs available on cable tv and "after hours." It isn't necessary to "curse" or show "nudity" during prime time in order for the networks to make a profit.

In stead, why not raise decency standards" Perhaps it would result in better programming if the appeal had to be to the intellect instead of the obscene and lewd.

We personally believe the current Regulations and NOT strict enough, they should be tougher. This kind of an action will only continue to put this country at greater risk of weaker morals and continue the degradation of our society.
