

I absolutely OPPOSE the changes to broadcasting put forth in GN Docket No 13-86. We do not need more profanity and vulgar content on TV today. Children are already exposed to this behavior enough in today's society. While it is Ultimately the parents responsibility to censor what their children do or do not watch, there is not a legitimate reason as to why the restrictions during prime time should be relaxed. I cannot think of ONE positive outcome it could have on our society and country.
